# The Natureness Authenticity Tool

# A Climate Therapy Core Process Enhances any Certification or Degree Training

# How to stop our education's prejudice from enlisting us in its piracy and war against Nature

<u>Warranty</u> This document actualizes the undeniable truth that: "You are reading these words here and now because, since forever, Nature is its wordless love to begin life"

This truth, today, results from, in 1965, as a scientist I asked the Grand Canyon Wilderness what the difference was between its life and mine. It became obvious. I could speak and it couldn't.

Michael J Colien

The program described here is designed to teach folks how and why the organics of Applied Ecopsychology work. They learn the art of being scientifically compelling and competent in how these organics help increase well-being and helps others do the same.

If you already know the art of <u>Natureness Truth</u>, it increases your persuasiveness. You influence enables you to successfully petition to show you already have the equivalence of what is being taught in parts of the program.

You demonstrate that you can convince folks to let your Natureness abilities substitute for what is required in a course or degree by writing a petition to this effect. In this way parts of the program increase your ability to strengthen your credibility in reducing piracy and better achieve you organic psychology goals. Your degree then becomes the means for your Applied Ecopsychology skills to make peace with Nature, around, in and as you transform piracy into Natureness.

As <u>Natureness Truth</u> demonstrates, the need, methods and materials to accomplish this necessity have been established. What is missing is folks who can convince pirates to use them and help them transform into Natureness.

If doing this meets your interests, the following will help you achieve them.

**Note:** You are required to learn and complete the Natureness process at least twice from <u>Natureness Truth</u> and its <u>core article</u> before you are eligible to apply this page's information .

This gives you enough expertise to petition your course instructorsness and committeeness to accept the equivalency of your Natureness where appropriate, as described below.

This is like putting on a pair of glasses that let you see how you can strengthen your communication skills, interests and Natureness while saving time and money to achieve your degree or certification.

Please Complete this Application and email it to nature@interisland.net

Best Action: Let us know why you want to follow this path so we can help you. 1-360-378-6313.

In 1989 it became apparent that graduates of Project NatureConnect's (PNC) Applied Ecopsychology training program had become unique practitioners of our special organic, ecoarts science. It was critical for our society to strengthen and support these student's PNC application of Ecopsychology if we were to eliminate the core prejudice of our civilization's presently unstoppable war and excessive conquest of Nature. Our society ordinarily provides this kind of support by issuing an individual an award, funding, accreditation, certification or a degree for their unique contribution, especially in today's climate crisis emergency.

In Contemporary Society, an advanced degree or certificate acknowledges and identifies a person who has demonstrated the ability to produce a unique, evidence-based, educational contribution to society's knowledge and well-being. Independently, Project NatureConnect's online training enabled its practitioners to meet this requirement. However, in 1989, by becoming more authentic and no longer a part of a US accredited institution, they did not receive degree assistance and were diminished by its absence. This was and is hypocritical since without knowing and applying the great trustable truth of Climate Therapy, parts of these organizations and their adverse side effects today still teach, support and increase our insane pirating and war against nature while they deny that they are its source and that the truth of its essence remains scientifically and socially irrefutable.

In 1988, to support PNC student's contributions with the honor and credibility that their authenticity deserved, at Greenwich University, Hawaii, I designed and implemented an online graduate and undergraduate degree program that awarded advanced degrees to PNC students who were interested in the benefits of scientifically defending and promoting their work on this level. This Canteen's complete training package option is available to those interested in mastering its challenges and its authenticity is continually fortified as new evidence appears from reliable sources.

The great trustable truth of Climate Therapy's eco-arts is a unifying antidote for our Civilization's error when it reveres itself in writing as "An advanced state of human society, in which a high level of culture, science, industry, and government has been reached." This description negligently omits that our civility is rooted in and today supports our Civilization being a written story that governs how our society thinks and relates while its prejudice identifies Nature as savagery or barbarism that needs to be conquered along with its people of "lesser" persuasions or origins.

Via this document's "Canteen of real water in a desert full of lying mirages", Project NatureConnect is available as a satellite campus or auxiliary training program for any organization that wants to support or incorporate our critical Nature-reconnecting contribution. It efficiently increases the moral and ethical contribution PNC makes to bring the world into balance through our Climate Therapy, Natureness Truth. Our objective is to help the prejudiced parts of our society stop enlisting us in their otherwise unstoppable <u>war with Nature</u>. This is urgent. Without our GTT added to everything, our belligerent prejudice against Nature has 48% deteriorated person/planet life and will painfully <u>collapse our world by 2040</u>. This GTT training program works because it helps build a protected wildlife sanctuary foxhole where it can safely function and serve as a remedy for what ails us.

## **PNC Mission**

Because scientifically "Nature" is "loving to become life", Project NatureConnect and its Climate Therapy Applied Ecopsychology training program dedicates itself to creating heartfelt, evidence-based educational experiences that let Nature's lasting love to begin life help us increase personal, social and environmental well-being. Within a natural area, the fountainhead of authority in how Nature's peace and perfection works, as fiduciaries we scientifically design, implement and enjoy 54-sense spacetime facts, methods and materials. In the now, their unifiedfield truth helps us transform the core of our abuse from our excessively nature-disconnected ways into the happiness of responsible person/planet relationships. This organic, eco-arts, management tool fortifies individual and corporate sanity as it advances world citizenship that stems from Nature's unconditional love to progress its ways, wisdom and voice.

## **PNC Origin**

Since 1965, PNC founder, Dr. Michel J. Cohen, has believed that as a twig is bent so grows the tree and for this reason the human race has lost its way. Our growth from the "savage" does not necessarily lead to the cluttered, materialistic often desperate life that we presently live. To find the right road my nature-connected learning program must return its participants and itself in reality as well as in imagination to the origins. From them we can go forward again in a truly civilized, not a merely artificial, way of life. My sixteen years of communities beneficially actualizing this GTT program resulted in me being recognized as a <u>maverick genius</u>. Today, I'll match the heartfelt truth of my 61 years of pure, evidence-based, 54-sense experiences in natural areas with anyone's time there, past or present; and I'll excel via the science of my Natureness Truth. Better still, I can teach most folks how to become a maverick genius so they can help reverse our excessive nature-disconnection quandary.

## The Missing Key

Our secretive world often leaves us unaware that a critical key to increasing personal and global well-being is undeservedly ignored so our problems continue to increase. The eco-art of this often-omitted cutting-edge social technology is a tool that reinstates the loving organic core of science to help us make each day a better tomorrow.

## Nature *non-verbally* consists of its love to become life while most of our natureprejudiced education and counseling stories *verbally* <u>socialize</u> us to <u>war with Nature</u>

Sadly, this fact is painfully obvious: moment-by-moment, our excessive conquest of Nature stories and acts are breaking the world around and in us. This increasingly makes our formally healthy planet, *Organism Earth*, an endangered species, the only one of its kind that we know. We don't apply the scientific remedy for this catastrophe because our ego's shame of creating this war's uncivilized outcomes makes it deny the remedy's existence as an antidote and preventative for its/our trespasses that it mislabels "progress, improvement, economic growth". Without recognizing this appalling phenomenon, we continue to create and endure the deceit and abuse that increasingly injures the world of Organism Earth including us in and as it. The only way for our ego to deal with its denial of this occurrence is for its sense of reason to make time and space to rewardingly experience GTT person/planet benefits. That composts and recycles our prejudice against Nature into embracing it. Anything less would be a substitute for the organic purity of the real thing and suffer accordingly. It would be out of compliance with this PNC Canteen.

## **Genuine Contact**

The books, *Liberate Your Natural Senses* and *Climate Therapy*, demonstrate that it is as if PNC, via our <u>Natureness Truth</u> creates appropriate space for a herd of wild horses to increase its safety from people while the herd's astuteness helps humanity increase personal, social and environmental well-being.

Via Climate Therapy, we scientifically answer the question "What is the greatest truth in your life that you can trust and its not Nature, God, Love or Honesty?" since they have built and brought us to today's global suicide path. We then <u>use that fundamental</u> as the core organic science we apply because its holistic truth unifies all things that exist including each of us, alive or dead. It is the same Natureness Truth for everybody and every part of our planet's life, quantum to solar system and beyond. Singularly, spacetime, moment-by-moment, the essence of all, is one seamless now continuum.

It is best to know your great truth to get the greatest benefit from your visit here.

This Project NatureConnect Climates Therapy canteen happening is one small Truth step beyond. It has been peer reviewed and published in <u>scientific journals</u>. Its significance is that as an integral part of the tree of life, when we scientifically translate our life into words, everybody's and everything's last name is Spacetime or Natureness Truth, including the tree of life.

The absence or adulteration of Natureness Truth produces <u>Earth Misery</u>, the increasing catastrophe humanity now faces because we fail to identify and invoke its Climate Therapy GTT remedy. For this reason, we have re-organized PNC and its courses to work as fiduciary GTT study groups so they master expediting what is now critically missing for the improvement of the human condition.

## Nature's Truth

Natureness Truth or not? Moment-by-moment, this is the key to scientifically reducing Earth Misery. Natureness relationships are always true to life and accurately identified by their self-evident, 54-sense and 24 prime fact labels including our Natureness last name being Spacetime or Natureness. Similarly, social and environmental scientists reveal significant truths by studying intact wildlife populations. They collect data via advanced radio and internet satellite and computer technologies that don't disrupt the integrity of the study subjects (except in quantum settings). They then process their raw data. To this end PNC successfully meets the same challenge in a safe and legal way with our Natureness groups in <u>contact with natural areas</u>. This also protects students from being adulterated and us being libel for higher education's negligent omission of Natureness.

Because its purifying deductive reasoning embraces what is repeatable and removes the misleading mystical and supernatural from Nature, our Natureness is foolproof and we <u>warranty</u> its certainty. Individually and locally its words provide updated information directly from conscious 54-sense contact with the global ecosystem in natural areas, backyard to back country. This assures the "true or false" spacetime excellence of the education we provide our students By gaining consent from the "herd," they enhance the natural areas they visit by honoring and caring for them rather than irrationally manipulating them to produce Earth Misery, as has been the case since 1974.

## **Academic Corral Transformation**

Scientifically, aliveness of Nature (capital N) loving to become life, includes inherently attractive, non-human created, self-organized, self-correcting places and relationships that are non-verbal. For 13.8 billion years, moment by moment, the Big Bang Universe has functioned as a growing actualization of its prime attraction relationships and they loved into being today's form of humanity approximately 150,000 years ago. We were preceded for 300,000 years by the self-balanced yet limited language evolution of parts of Nature to become human.

Restated, *Nature* is its love to begin life in each now spacetime of what we label the NNIAAL Cosmos, Pachamama, Standard Universe, Nature, Earth, Unified Field, Spacetime, Greatest Trustable Truth, Natural World and Web-of-Life including Humanity. No evidence exists that Nature or Organism Earth can withstand our destructive ability to relate through the prejudice of our abusive, excessively nature-disconnected labels, stories and artifacts.

Although it may have been injured, a natural area is authentic Nature in action, the real-time authority in how and why its now perfection works. Humanity genetically inherits this information and then, correctly or incorrectly, uses our artificial language stories to attach and mold our <u>54-natural senses</u> into our cultural beliefs, artifacts, dogmas and relationships. We then happily benefit, or abusively suffer, the results of our unique language ability to transform nature's 54-sense truths into our suicidal <u>war with Nature</u> and our excessive, artificial story wants. That story is a Nature-consuming foreign substitute that Nature's surplus has been able to accommodate. It became and is an abusive weapon of mass destruction when it overuses Nature's surplus and increasingly bulldozes away the integrity of Nature's attractive wisdom and essence.

## **Existential Corral Validation**

The following activity demonstrates the outcomes of PNC's Climate Therapy and its potential in any situation.

Emulating the life relationships of our wordless planet, a group of 8-60 people form a learning circle and each pledges to follow these three Natureness Truth demonstration activity instructions.

1) Community Participation: Each person chooses (are attracted) to imitate the wordless motions of one other person in the circle while being sure their chosen person did not choose to imitate them, instead of somebody else.

2) Community Process: Each person always changes their motions to imitate the motions of the person they chose to imitate whenever that person changes their motion.

3) Individual Freedom: The group starts the non-verbal demonstration together by each person displaying some attractive motion of their own choice. (waving hand, bending over, shaking foot etc). Then, they immediately change whenever their chosen person changes.

## Results

At the start, the circle is chaotic but over time it slowly ends with everybody in unison doing the same unpredictable activity.

Individuals who mistakenly choose each other are easily identified because they end up doing a different activity than the group. Verbally, the circle helps them catch-up to the moment and become part of its wholeness (all consenting to its verbal instructions).

A "corrupt" individual who's story decides to dominate the community purposely doesn't change their activity when their other person does. Predictably, from this lie, the total community ends up doing their domineering activity. Later this individual may possibly be identified via evidence from the group experience. The best time to correct this breach is when anybody notes that it is occurring during the activity.

A group analysis of the demonstration reveals how and why Project NatureConnect achieves its stated mission (above). In real time, all its social elements are present in the activity. In addition, Nature's non-verbal, unifying energy/voice is present when participants include their Natureness strengthening experiences.

## Administrative Enactment

In the PNC corral, students and staff learn hands-on how to transform Nature's natural area Natureness wisdom and experience into customized words and images that convey Nature's integrity via 78 verified <u>existential and long established facts</u>. This helps all gods be Natureness available as even our attractions to nameless weeds and their flowers. As if their last name was Spacetime, Corral participants, using an autobiography path, organize these facts for insertion in reports, transcripts and forms needed to validate and convey this wisdom as appropriate coursework or degree annotations. It is then available within 1-48 hours to schools or organizations in need of it to substantiate degree, course or professional training requirements

## The Autobiography Path

• That you are reading these words is the greatest truth in your life that you can trust and it is not Nature, God, Love or Honesty.

- Do you know what your <u>greatest truth is</u>? Without it, you excessively suffer the hurtful lies that surround us because you don't believe that your hidden name is Spacetime.
- Free. Beneficially authenticate your truth by calling 360-378-6313 or explore it further, below, before you call.

## **Education and Training Goals for Students**

In the organic arts and science of Applied Ecopsychology, and most other disciplines, a person is awarded a Ph.D., or certification, when their evidence-based arguments successfully defend their evidence based *hypothesis*. They accomplish this by demonstrating it beyond reasonable doubt, like a trial lawyer who, under rigid academic standards must produce the truth, the whole truth and nothing but the truth.

Students are required to convincingly make available to their academic committee and Society their new and unique scientific contribution that increases personal, social and environmental well-being. Painstakingly, this goal at times may be reached by the exhaustive use of explanations, validations, references and defenses of a wide range appropriate studies and other forms of truth that apply to the hypothesis.

Note that the most powerful, convincing and applicable truths are actualities based on an individual's 54-sense self-evident experiences. This is because felt-senses and relationships are undeniable facts of life that can be considered but never refuted since they are part of Natureness, the greatest truth that an individual's life can trust,

When a person's sense of language creates a verbal story, it is part of their Natureness autobiography from the moment they were loved into being to the moment they begin their Oral Examination with their Academic Committee in defense of their work and how well they describe it. This process is similar to a trial by judge and jury of the student's adequacy but a trial where the student is also their own attorney pleading their own case. In this examination, selfevidence from their experiences and autobiography is the most powerful means to substantiate their hypothesis.

In general a student's up to 40 word hypothesis states: "By Natureness Truth learning, applying and teaching Applied Ecopsychology organic science eco-arts, my <u>(topic .,, "nurse")</u> autobiography and energies demonstrate that I can improve my own and my clients' Natureness life and uniquely increase personal social and environmental well-being." This makes a dissertation a defense of **what the student has supportively gained/learned** from their experiences and training, be it successful or not, good or bad.

If you are a PNC training student, your compelling autobiography can be the most accurate, happy and efficient tool to reach your academic and financial goals on the program and receive your degree. I describe the autobiography path, below. It uses your most applicable life experiences, education and creativity to support your hypothesis and make your petition to be eligible for your degree irrefutable.

Note that your autobiography path is based on you understanding and knowing what your Natureness Truth is. You should understand this great truth now via a phone call, then return here and continue. Otherwise, this autobiography path will not work because you won't fully know your greatest trustable truth until you can validate that you do.\_360-378-6313

Your Natureness Truth. The fact that you are reading these words is <u>the greatest</u> <u>unifying truth of your life that you can trust</u>. However, like most people you probably don't know what your great truth is because these same words are hiding it from you. Guaranteed: scientifically, your greatest trustable truth is not Nature, God, Love or Honesty; in fact, too often they encourage us to produce today's dilemmas.

Do you really know what your greatest trustable truth is? Do you think you honor it or that you are prejudiced against it?

Visit and complete the <u>description of Climate Therapy</u>. Then, knowing your Natureness, apply it as a "magic wand" as you continue below. Anything its spacetime unity powers touch turns to truth. You dissertation's proposal is that you will validate that your Natureness qualifies for your Applied Ecopsychology degree by being Natureness as you actualize the terms and process of Organic Psychology during the exam. The strongest way to master your great truth is via our *Liberate Natural Essence* book and its fiduciary course ECO 515/615 *Principles of Organic Psychology* that is forming now.

Your most efficient and reasonable means to be awarded your degree is to logically convince your committee members' Natureness of your genuine great Truth ability to help stop or reverse Earth Misery through your expertise in making space for the Unified Field to do what it does best. This works because you all hold in common the scientific eco-art of spacetime and its GTT effects, moment by moment. It is  $\underline{E} = \underline{mc^2}$  in action.

Your Oral Exam takes place in spacetime moments so your Natureness presence in it prevails as you and your autobiographical evidence defend your hypothesis.

## A Sample Autobiography Inclusion

Note that as examples, **in bold** I add to this autobiographical statement some established Applied Ecopsychology Natureness facts that validate it so it is 54-sense heartfelt acceptable as a scientific explanation or description that supports the hypothesis and certificate/degree completion. Try to integrate these inserts so they smoothly support, rather than interrupt, the narrative's flow and its strengthening of your qualifications. Or you can cite evidence for them through Validations at the end of the statement. The object is to be compelling. You add these facts only enough to keep the discussion in scientific perspective so it continues to be accurate and believable. That's the aim, to convincingly demonstrate that you have this ability and can make a contribution by doing it. It's core is to imagine your last name is "Spacetime" or "Natureness" or you are wearing organic science glasses that only let them appear.

In actuality, your Natureness writes your autobiography as it dispels your learned prejudice against Nature.

Be sure to recognize that most "scientific" citations come from authors, studies or influential folks who do not know their Natureness and are usually promoting today's 45% deficient Earth Misery Climates. Each GTT omission can be noted as a problem or challenge the GTT of your work is trying to remedy.

"As my Great Trustable Truth, 87 years ago. I, Mikeness<sup>3</sup>, am 4 years old and I hear my mother calling me to come inside but I'm so enjoying making mud pies that I say no and don't pay attention to her request. She comes out to get me and is annoyed that I have mud all over me and that I didn't listen to her. I feel sad, ashamed and abandoned as I fear I have or will lose her love. (senses 25-27, 54). Via ECHN I explain to her that my Literate-Story Life is more attracted to the call of my non-verbal Natural-World Life to fulfill my senses (of play, color, texture, community, trust, motion, form and happiness plus the 5 senses ... yes I have eaten a little mud...) rather than yearning for them while I am in the house. For this reason, I explain to her, my GreenWave-54 senses of time, place, reason and consciousness are telling me that I can come in a bit later without any harm and I unified my "two bodies" by staying out when her story first said to come in. 'Momming, can you be more aware, understanding and supportive of these callings from the life of Earth, my Natural Being Body? Can we ride the NNIAAL of our Unified Field together for a few minutes. Maybe you will Natureness feel them too and be less stressed and annoved which will be more reasonable<sup>1</sup> (sense #42) for both of us. Let's do an Earth-connecting activity together and see if it helps.' (GreenWave Prime Fact #19. - GreenWave-54 Grokking via our Consciousness, Reason and Literacy senses creates organically sound human relationships).

What I learned and helped me grow: As I come into this moment by consciously taking a deep breath, I appreciate the fact that I no longer fear abandonment by others when my **webstring loves** make more sense than other people do and I can try to help their Natureness understand what I am feeling or have done. I appreciate making this gain and being able to use **Organic Psychology methods and materials** to help others do the same.

My co-mentor has shared that she has had the same experience and I feel support from her for that. I'm not as crazy as I thought, or at least I'm not alone. This supports **GreenWave Prime Fact #7**<sup>2</sup>. An attraction that we find in a natural area is that same attraction within us attracted to loving the joy of reuniting in the aliveness of now with itself and its unified family origins in the natural area.

And/or presenting supportive facts can be accomplished via superscript as

#### VALIDATIONS

<sup>1</sup> Self Evidence: Senses of Reason, Consciousness, Literacy, Fear.

<sup>2</sup>Prime Facts: #19 value of grokking, #7 attractions love their origins

<sup>3</sup>Additional Facts: being my essence, being a verb, recognizing two bodies, unified field.

Whichever makes the argument/defense narrative most effective and is APA acceptable.

Validations can also be accomplished by adding this information to the end of each autobiography inclusion:

Each raw journal entry in the dissertation either covers in its narrative, or adds as a summary of it

#### Journal Entry summary:

Vaidation: I submit that this evidence supports my	y hypothesis by demonstrating that I,
as a " My Natureness, Personification of Spacetime or Nature, Mother Earth Avatar,	
etc," have been involved in this experienc	e and grown from the sense(s) of
and the great Truth facts	to beneficially contribute
to personal, social and environmental well-being.	

This is/was reasonable because it helps/helped reduce these\_\_\_\_\_ Earth Misery Climates.

There were\_\_\_\_\_ or more people aware of, witnesses to or beneficiaries of this event.

It's effect(s) or outcome(s) was/are \_\_\_\_\_

Signature:

#### Natureness your program

As you participate in your PNC training and program courses and apply your Natureness to their situations, your challenge is to sooner or later create a convincing written defense of your hypothesis. Your narrative effectively blends your autobiography and your coursework to scientifically demonstrate how they have increased your well-being so you can help others do the same for their life relationships.

Paragraph by paragraph your narrative should reasonably convey what you learned and added to your great Natureness Truth autobiography so you could more effectively master your objectives and validate it in your oral exams.

#### **Summary**

<u>To our harm and urgency</u>, we are all habitually bonded or addicted (attached) to things because, hurtfully, part our personhood is prejudiced against and excessively disconnected from its purifying supportive and fulfilling attachments to its origins in the life of Nature's Universe. This stressful and fractionalizing separation's painfully <u>abuses us</u> and pollutes our thinking and

relationships. We feel the discomfort and attach or addict to artificial, unreasonable imitations or stories that relieve it. However, the latter do not have the self-correcting purity and beauty of Nature's homeostatic aliveness. Instead, they often do have destructive personal and environmental side effects so our problems increase

Blend your life-history, prior coursework, training and experience into a chronological-type, first person autobiography that you continue to write and adjust as you read/do the program's required books, web pages, activities and internships. Familiarize yourself with their activities and validate your responses to each of them in context with each other as part of your "you are there now" autobiography. You may write in third person sensitive areas that you explore however, that may be risky to fully disclose to readers. You might think of your narrative as "The Natureness Truth Story of Nature/Earth as Me."

The completeness of your evidence-based autobiography is the central focus of the Climate Therapy path and your certificate/degree.

## **Ethical and Moral Credibility**

Without Natureness being the central factor in academics, USA accreditation is not credible. Its process has taught and continues to teach us to further our <u>abusive ways</u>. This means, when accredited, we are supporting what academia and others have long affirmed

## DICTIONARY:

"I·vo·ry Tow·er: an attitude of aloofness from or disdain or disregard for worldly or practical affairs, a state of privileged seclusion or separation from facts."

"Ac·a·dem·ic: very learned but inexperienced in practical matters"

This contradicts our mandate, mission and ability to improve personal and global well-being by reducing our prejudice against Nature.

The operation of our academic Natureness corral has been established and works when its fiduciaries do not neglect to complete its agreed upon, mutually beneficial obligations to PNC as a Natureness arts and science training program. They support and strengthen each other.

## **Completion of Courses, Certificates and Degrees**

The PNC Climate Therapy spiritual ecology certificate and degree track of Applied Ecopsychology is unified by Natureness validating that from the moment Nature's love becomes their life's conception to the present moment, a student's life is creating what they can present as their written Natureness autobiography. This substantiates their hypothesis that "By learning, applying and teaching the Natureness organic science process, my autobiography and energies demonstrate that I can uniquely improve my own and other's lives and credibly increase personal social and environmental well-being"

Yesterday's Natureness experiences are the latest addition to our autobiography today.

Program completion is accomplished by administrators, faculty and students alike validating and strengthening the hypothesis by invoking it in their roles, studies and relationships. This translates into their dissertation, oral defense and transcript that the cooperating degree program accepts and accordingly awards the appropriate degree or certification.

## **PNC Accreditation History**

USA accredited organizations and individuals have accredited PNC Great Truth 78 training and education as follows:

1970 Equivalent USA education for courses or a senior year of High School 1970

1972 Advanced USA standing in specific college courses, Lesley University, Massachusetts

1973 Accredited USA BS and MS coursework at Lesley University

1977 Accredited USA BS degrees from the University of the State of New York. New York

1977 Accredited USA BS and MS degrees from Lesley University, 1977

1992 Accredited USA BS, MS, Ph.D. courses from Portland State University, Oregon

1997 Accredited USA courses for BS, MS, Ph.D. degrees, West Coast University, Panama

2002 Accredited International ASIC BS, MS, Ph.D. degrees from Akamai University, Hawaii

2017 Accredited USA BS, MS, Ph.D. courses from University of the Pacific, California

# **Required Courses for Certification or Degrees**

See updates at <u>www.ProjectNatureConnect.org</u>

## **PART ONE:**

- ECO 5/600-A (1 Credit) <u>Psychological Elements of Global Citizenship, (take this</u> <u>course with an organized group online)</u>
- ECO 5/600-B
   WLI group interactive (2 Credits)(take this course with an organized group
   online)
   Course Activity Book: WLI The Web of Life Imperative
   Associated Readings
   - RWN Reconnecting With Nature
   - Principles of Organic Psychology
- ECO 5/601 Introduction to Educating and Counseling with Nature Student Teach 500 RWN (3 Credit) (take this course with an organized group online)

Book: *RWN Reconnecting With Nature Principles of Organic Psychology* 

- ECO 5/616 (2 Credits) Greenwave Unified Field with Revolutionary Wisdom
- ECO 5/617 Just Read. Optional: interactive (3 Credits) Book: <u>NHP The Hidden Organic Remedy: Nature as Higher</u>

## PART TWO:

 ECO 5/608E Natural Attractions Intelligence Sanity: Einstein's World (1 Credit) Book: *EW Einstein's World Principles of Organic Psychology / Revolutionary Wisdom*

## Certificate Requirements met (Part One and Two, above)

ECO 5/602 I Elements of Educating and Counseling with Nature WMWE/CWN (4 credits)
 Book: WMWE Well Mind Well Earth/Connecting With Nature +

Principles of Organic Psychology / Revolutionary Wisdom

ECO 5/603 II Elements of Educating and Counseling with Nature WMWE/CWN (4 credits)
 Book: WMWE Well Mind Well Earth/Connecting With Nature +

Principles of Organic Psychology / Revolutionary Wisdom

**Master's Requirements met** (Part One and Two, above + Eco 700's and/or Eco-Arts elective, PNC Practicioner courses, project proposal, below)

- ECO 5/611: Educating and Counseling with Nature: Student Teaching or Mentoring ECO 500 (B) students (2 credits) *Revolutionary Wisdom*
- <u>PhD only</u> ECO 612: Educating and Counseling with Nature: Student Teaching or Mentoring ECO 5/602 & 5/603 students (3 credits) *Revolutionary Wisdom*

## ECO 700 EXPERIENCE COURSES (select for instructions)

- ECO 761: required Field Study Practicum in Applied Ecopsychology (3 credits)
- ECO 762: required Advanced Field Studies in Applied Ecopsychology (3 credits)
- ECO 763: required Case Studies in Educating, Counseling with Nature (3 credits)
- ECO 794: required Special Projects in Public Education (3 credits)
- ECO 792: Advanced Readings in Applied Ecopsychology (3 credits)
- ECO 661 Phenomenology Research Techniques in Applied Ecopsychology
- ELECTIVES: Eco-Art. **NEW 2020:** Equine Assisted Learning and Therapy (EATL) in Applied Ecopsychology. Happiness, Sustainability, and Effectiveness through PNC/Heartwood Path, Tranformational Wellness Coaching (These courses can replace 752,753 or 792 above).\*

13 credits for MS Project Description in lieu of thesis.
-Work with an SET-18 advisor for completion
EXM 880 COMPREHENSIVE EXAM WRITTEN (2 Credits.)
ECO 561 Phenomenology Research Techniques, or another project. (3 credits).
RES 885 Thesis Proposal (2 credits).
RES 890 Thesis (project) and completion (4 credits).
EXM 895 Oral Review of Project (2 credits).

or

#### 18 credits for PhD Dissertation.

EXM 980 COMPREHENSIVE EXAM WRITTEN (2 Credits).
ECO 661 Phenomenology Research Techniques, or another project (3 Credits).
<u>RES 985 Dissertation Proposal</u> (4 Credits).
RES 990 Dissertation Research and completion (8 Credits)
EXM 995 Oral Review of Dissertation (2 credits).

#### \*<u>Students who want to become Certified ECHN Applied Ecopsychology Practioners, can</u> later or concurrently take the ECO 501 and/or 502 courses as co-facilitators or partners and teach approved courses through PNC.
