

Dear Caring Person,

Thank you for your interest in stopping the distortions that prejudice us against Nature and create many crises. I urge you to review, or with permission publish, the peer-reviewed Climate Therapy tool, on page one, below. It's self-contained, nature-connected psychology process reduces our climates crises, including the climates of our mental illnesses, stressed relationships and most other disorders. Here's the problem it remedies:

**12/02/20 News Media Internationally:** UN Secretary General Antonio Guterres issued a searing indictment of humanity's suicidal "war" on the environment Wednesday, in a speech on the state of the planet in which he urged everyone to prioritize "making peace with nature."

"We are facing a devastating pandemic, new heights of global heating, new lows of ecological degradation and new setbacks in our work towards global goals for more equitable, inclusive and sustainable development," Guterres said in the address, delivered at Columbia University in New York.

"To put it simply, the state of the planet is broken."

Scientifically, in 1949, our Static Universe's entropy, chaos, and infinite resources were proven inaccurate. They were replaced by today's Standard Big Bang Universe space-time continuum and its intent or attraction to continue its life. Sadly, today's prejudicial war still denies that Earth and Nature are as alive and knowledgeable as contemporary people. As the war abuses Earth we abuse our rights to life because its life is our life and the war withholds the spacetime tools that stop this madness. They include the article/tool below, presently under review that you can help review. Since 1982 its author has, in person, demonstrated to the media, higher education and the United Nations the core cause and peacemaking remedy for our prejudicial war. It includes

- **The cause of the war** is that from our early childhood on, Higher Education's ivory tower is legally empowered to teach us to be excessively disconnected from and prejudiced against Nature. It has yet to even verify that Nature is alive.
- **The remedy for our prejudicial war** is the peer-reviewed, organic arts and science of 54-sense, Climate Therapy connections with authentic Nature, backyard or back country.
- **The fundamental source of the war** is that our central way of excessively nature-disconnected knowing, managing and relating is paid to be scientifically misleading and artificial. This victimizes us so, for habitual satisfactions that relieve our nature-disconnection pain, we unreasonably and illegally overuse, abuse and conquer the life and spirit of Nature's climates, around, in and as us.
- **The fundamental source for therapeutically creating peace with our world and self** is to identify and apply the Greatest Trustable Truth (GTT) of our lives that lives in us and in the now of any natural area or thing. That truth is neither Nature, God, Love or Honesty. Do you know what it is?.
- **This article's organic science eradicates our prejudice** and the wide range of personal and environmental disorders that our Nature-eviscerating stories create. It is the missing link in the way we learn to think and relate.

It's time to get real. In our Journal of Organic Psychology or elsewhere, we will peer-review and publish the article, below. It actively transforms our prejudice against Nature into love as it enables us to stop our lies by validating our Greatest Trustable Truth and help others do the same. This provides the missing critical experiences for improving the human condition that most therapies and philosophies omit.

You can help by reviewing the article and affirming you believe the article does, or does not, qualify for publication. You may optionally include explanations for your decision using [this simple form](http://www.ecopsych.com/PEERREVIEWFORM.pdf). [www.ecopsych.com/PEERREVIEWFORM.pdf].

An article often won't be published if a journal thinks it's material is already published so please don't share the article publicly, other than for potential review, until it is published or you get permission to publish it. It's an active tool and you can be a phone reference person for it if you want. If you think you can help get it reviewed or published, please let me know.

As our love to begin life,

*Michael J. Cohen, Ed.D., Ph.D.*

**NOTE:** This article is presented for review purposes only to help determine its possible publication. It presently may be under review by a publication and your review will help that editor make this decision, unless you want to publish it. After that it will be available for your interests.

## **The ~~The Therapeutic Climate of~~ Climate Therapy Fact: Nature is its Wordless Love to Begin Life**

**~~A unifying, 54-sense, Climates Therapy tool scientifically remedies our abuse of Earth, others and self.~~**

**Michael J. Cohen**

### **Summary**

Since 2020, the United Nations has insisted everyone must stop waging our suicidal war on Nature because the war's abusive climates create our personal and global disorders including climate change. The remedy consists of adding your common sense to this core article's indisputable Prime Truth: "It is true that you are reading these words here and now."

The article invokes Prime Truth, so, by 850%, anyone can more powerfully convert our prejudicial war against Nature into spacetime-love. It makes peace with Nature, around, in and as us by motivating us to consistently grow and embody Climate Therapy, a 54-sense, truth-making tool whose Prime Truth converts misleading lies into trustable facts that increase personal, social and environmental well-being.

The article motivates you to increase your Climate Therapy expertise individually or as part of an online independent community. You happily learn-by-doing to create space that lets Nature

reduce our hurtful abuse and disorders because “Prime Truth: *Since before forever, as now, Nature is its wordless love to begin life.*”

Sadly, our education omits Nature’s Prime Truth and thereby creates our ever increasing problems including climate change. This article treats that catastrophic omission by making our traditional beliefs include, “Prime Truth: *Space-Time is Nature’s wordless love to begin life.*”

To our loss, we learn to spend 99% of our time with our words out of tune with us being personifications of Nature’s eons of purifying balance and beauty. This tragic disconnect addicts us to excessively compete and war for “natural resources” to manufacture profitable, artificial satisfactions that temporarily reduce our painful loss of Nature’s love while we pay ourselves to do this. This global injustice has, by 45%, so overused our natural resources (read metabolism) that Earth’s bankrupt life can no longer restore them.

This article’s remedy contributes Nature’s Prime Truth as the essential, but missing, trustable truth of our life. I am a 92 year old personification of Nature’s Prime Truth who, commencing 1959, founded year-long, revolutionary, accredited, travel-camping expeditions independently and for the National Audubon Society. In 1965 the Grand Canyon Wilderness made me aware that “*My/Humanity’s life can speak with words and Nature can’t. We unjustly conquer Nature’s life because, wordless, it is defenseless.*” This article helps you correct this immoral disaster that is deteriorating our personal and global climate.

## Abstract

**Objective** I am a 92 year old personification of Nature’s wordless love to begin life who, as an Applied Ecopsychology ADP, commencing 1959, spent 26 years directing one-month to year-long, utopian, Nature-Connected Psychology expeditions independently and for the National Audubon Society. Travel-camping across the USA, they organized themselves to create educational natural area moments that let authentic Nature teach and heal, as does this article.

**Methodology** Since 1985, after initiating the world’s first “Is the Earth a Living Organism?” Gaia symposium, I created today’s Project NatureConnect online Organic Psychology courses and degree programs. Their heartfelt Climate Therapy process interlaces our 54-senses with Nature’s authenticity in natural areas, backyard or backcountry. This 850% increases personal, social and environmental well-being as it transforms into Nature’s unconditional love the abusive core cause and pain of our problems including our suicidal war with Nature. This article continues this process.

**Discussion** Professional journals have validated my 1965 hypothesis: “Teaching myself and others to teach Climate Therapy achieves my objective, above.” This hands-on article/tool alone accomplishes this by validating and adding value to this indisputable core truth, “You are reading these words here and now” In 1965, in a wilderness area Planet Earth actualized that

great truth. It demonstrated that because my/humanity's life could speak with words and Nature could not, to our loss we excessively disconnect from Nature and detrimentally exploit Earth's limited natural resources, i.e. its/our metabolism. Today, Planet Earth is 45% bankrupt and counting.

**Conclusion** This article creates moments that let you interlace with Earth's organic wisdom in a natural area and help remedy our suicidal ways. The experience contributes critically missing spacetime facts by invoking anywhere *"It is undeniably true you are reading these words here and now because Nature consists of its wordless love to begin life."*

## Introduction

As a twig is bent, so grows the tree. Similarly, today we painfully break our world because we are born into, attached to, and warped by our society's undue prejudices and war against Nature. Their lies create our hurtful personal and global climates (Cohen, 1983) because prejudice is an unreasonable, pre-judging attitude that, due to bonding, is unusually resistant to rational influence.

Since our prejudice ~~emotionally attaches us~~ emotionally attaches us to misrepresentations, we resist or deny the existential Prime Truth that corrects them. This learn-by-doing article is that truth. I know it from 71 years spent studying its person/planet source in natural areas. (Cohen, 1993). You know it because as you read this it's becoming your truth of this moment ~~the "now" of spacetime~~ in context with the Prime Truth "now" of our spacetime, Standard Universe, common knowledge.

This article is organic. On its self-updating pages it's nature-connected psychology grows itself into a practical applicable social technology that continually strengthens our Prime Truth so we can apply it anywhere, anytime to any relationship, discipline or transition. Its existential power converts each of our distortions and their abusive effects into 54-sense, peer reviewed, scientific facts (Cohen, 2017) that, by 850% increase well-being anywhere as they help us help others do the same individually or in an online independent community.

The truth is that in 1949, our traditional Static Universe's entropy, chaos, and forever self-regenerative ways were proven inaccurate. They were replaced by today's, ever-growing, space-time, Big Bang Standard Universe including Nature's wordless love to seamlessly continue its life. As part of Nature we are conceived and born with an instinctive, moment-by-moment, love to be nurtured and grow to survive. We realize this 54 felt-sense fact because without being nurtured we know we won't continue to live, it's self-evident (Cohen, 1997). Note how easily this organic truth validates itself on this page. ~~We simply repeat, strengthen and actualize this 54-sense process as we proceed.~~ We simply repeat, strengthen and actualize this 54-sense process as we proceed.

This article's truthmaking energies, 850% (8.5) more sensibly strengthen the remedy for our outdated, prejudicial Static Universe climates and crises that today, sadly, our communication stories continue to create and suffer (Cohen, 2020c). This is an emergency. Personally, locally and

globally we desperately need to reduce our catastrophic falsehoods and our solastalgia hurt from their abusive ways (Mallory, 2017).

**Prime Truth Exhibit 1.** Today it is obvious that, excessively, our education's bias has scientifically indoctrinated us to break apart our world. In response, this article is a 54-sense spacetime practice whose facts reunify things globally locally and within us. As you read it, you act out its truth, make it happen and love it, especially if you want to live in sane wellness, justice and reason rather than the increasing destructiveness and chaos of our lies.

I've spent my past 56 years, living and learning with others in 84 different natural habitats, to strengthen humanity's nurturing abilities and reduce our ill-treatment of them and each other (Cohen, 1998). For this reason, as this narrative continues it validates that Nature is the fountainhead of authority and history of how its perfection works. It establishes that in reality, and since before forever, *Nature is its wordless love to begin life* and that whenever we excessively disconnect from it we create a personal and global need for Nature's love to be reinstated. Then the article enables Nature to reinstate it, as only Nature can, so we don't continue to suffer from the deprivation of its embrace (Cohen, 1993).

Today, our planet is bankrupt and broken. Wounded, it's in death throes because it can't replenish what we overuse. This means there are no longer reasonable substitutes for Nature's ways and love. Why? Because in 1974 we used up our planet's ability to recover from our excessiveness and that deficit has increased ever since. It's 2021 and Earth is 45% resource bankrupt and counting.

Red alert! The United Nations has proclaimed humanity is waging a prejudicial war on nature that is suicidal and stopping it must be a top priority for everyone, everywhere (Cohen, 2020c). This unique article/tool helps us meet the UN imperative to make peace with Nature (Cohen, 2001).

Obviously, if I start here by lying, everything based on that lie will also lie until corrected. That's how the spacetime continuum works. To avoid this trap, I've anchored the article in this Prime Exhibit's therapeutic truth. Then as the article continues, this truth strengthens, grows, actualizes, and reinforces itself as we add value to it. It's *Climate Therapy*, a purifying, ~~all-Climates-climate~~-types\_Therapy-process, empowers you to prevent and remedy the hurtful personal, social and planetary climates we increasingly create (Cohen, 2020b).

## PRIME TRUTH EXHIBIT ONE

**Your Prime Truth is** "It is true that you are reading these words here and now".

Think about it for a moment. It is indisputable. What is your Prime Truth's significance? How does it existentially feel or work? Isn't it perfect? Do you recognize it as space-time in action?

Note how our Prime Truth unites us in that if we agree with it, we hold and have it in common and vice-versa. Further note that if a scorpion, tornado or feces could read, Prime Truth would still unify them with all others that could read. This occurs because Prime Truth exists in its space and time on this page. If either were in some other place or moment, then this Prime Truth would not be available.

Prime Truth is like an accurate clock because it reports the truth as it's continually updating itself so as I write it again it's true about this new place and time on this page. In this way, "The truth is that you are reading these words here and now," is not the same as above. In this moment it is truer from the additional paragraphs alone. This means that what you may not find true in this prime exhibit now will become true in later exhibits. For this reason, I repeat, summarize or review key points whose truths might otherwise become polluted by regressing to their earlier warps out of habit. This repetition makes the total article become an organic spacetime fact-check, a habit-breaking force ~~that therapeutically reviews itself~~ that therapeutically reviews itself and that you can apply and trust anywhere, from quantum to cosmos. For example, boldly, right now, here, it defies the notion that there is no such thing as singular truth, ~~including yourself including yourself~~, since this is it, you are part of it reading it, here and now in spacetime.

Most people love their Prime Truth because its coalescing ways peacefully anchor them in a happy and responsible sense of trust. This replaces stress, fears and pain with the satisfactions of exceptionally accurate information and its organic beauty. However, most people don't know what their Prime Truth is because our formal and informal education purposely omit it to control us ~~or sell us something to replace it or sell us something to replace its~~ exclusion.

In the reality of existential science, when needed, things that are true exist, just like this article does right now. If our words identify them and they don't exist, our words are deceits, small or great, that hurtfully mislead us. Here, our Prime Truth is spot-on indisputable and unconditional. That's why it can help us increase well-being, moment-by-moment. In today's person/planet crises, whenever we do not apply it, we support the climates of our prejudicial war against Nature's distortions and their effects so our crises increase.

For the reason, above, you learn more if you read this article while in contact with the authenticity of an attractive natural area, no matter how injured, or your pet or plant, the more natural the better. Without words, the area's desire to recover will help yours and vice-versa.

Note that the word *inspire* means "bring in life (breath of life)", *Expire* means "depart life," *respire* means "restore life" and *conspire* means "breath life together." Note that this article consist of science with attitude. It conspires with you to stop our story's prejudicial war against Nature. We are able to constructively conspire using words because our truth is always Nature's wordless love to begin life.

*Review: Your Prime Truth demonstrates that whenever you read it, it is your truth of the world in that moment.* In heartfelt ways it supersedes, because it includes every other truth that helps spacetime replace our lies with the benefits of the facts in any situation, except two. One fact is that you are not convinced our Prime Truth is true and the other is some abuse that you endure so that your Prime Truth's abuse is still too painful.

**In summary**, beyond reasonable doubt here and now is the scientific certainty that our Prime Truth is genuine fact, the truth, the whole truth and nothing but the truth so help us spacetime Prime Truth.

**Note:** At the end of each exhibit, I state "Conspire", meaning "Consciously take a deep breath with other person/planet beings", and I also insert this mini-evaluator "( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)" to help you update and strengthen your Prime Truth and then continue. If you don't believe it is true that I inserted this, skim the article and check it out. Better

still, if you find where it's missing, you can correct my "lie" by inserting the phrase there yourself. In that way you experience the Prime Truth process by being it. Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

**Prime Truth Exhibit 2.** In the emergency of today's broken world, in any moment, our Prime Truth either increases personal and global health or it's an additional falsehood. Yes or no. That's the core of this article. In the now, it loves to increase our/your well-being by its Prime Truth replacing the lies of words that mislead us and it helps us help others do the same. Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

## Truth Exists

**Prime Truth Exhibit 3.** An inaccuracy that we write on paper can produce major consequences when carried out in Nature's reality. For example, a list of instructions for finding an oasis in the desert can result in death from dehydration if just one instruction mistakenly says turn "right" instead of "left." It's like leaving a dot out of a webpage address. Other examples,

- "Planet Earth is a limited rather than infinite resource."
- "We live on Planet Earth," when actually we live in it, under its clouds and flying creatures, as part of its biosphere's flow.
- "The Universe is static, decays and creates entropy's disorder," instead of "Our space-time Universe is an intention, it's Nature's wordless love to begin life." Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

**Prime Truth Exhibit 4.** Nature and we exist here and now. An indisputable fact is that if Nature or we didn't exist, our Prime Truth couldn't be true because we and it wouldn't exist. **This core way of knowing is the heart of pure science:** at any moment to not-exist or exist, 0 or 1, false or true, wrong or right, on or off, guilty or innocent, connect or be disconnected.

When you apply Prime Truth to your personal life your existence becomes an undeniable fact, so you scientifically know it, and more happily know how and who you are, what you are and do. This removes doubt and conflict, increases resilience, creates unity and brings joy because all things hold one attractive thing in common: they exist. This holds true even if you don't believe this or are not attracted to existing; you must exist to be non-attracted or a non-believer (Cohen, 2016a). Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

**Prime Truth Exhibit 5.** Your Prime Truth is a pleasing sentiment that needs no proof. Being existential and empirical, it registers directly in your persona's senses of consciousness and reason in concert with your 52 other senses. It validates that you are alive and exist and that you know you know it.

Our broken world and lies have so distorted our thoughts and feelings that most of us can't answer this simple question, "*What is the greatest truth in your life that you can trust and it is not Nature, God, Love or Honesty?*" We are born with and as this greatest truth and are educated to forget it. Without it we suffer the lies we create. Do you know the answer to this question? Most people don't. That's a key but very easily solved problem. (Cohen, 2021)

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

### **Our 54-Sense Truth**

**Prime Truth Exhibit 6.** We don't have to prove what we sense or feel in the moment because our life scientifically registers our Prime Truth through the reality of self-evident sensations we directly register in our 54 senses. You are doing this right now. By their names we know them as our senses of sight, reason, consciousness, literacy, color, shape, trust, community, place, distance and aliveness. These, and 43 other senses, register, blend, validate and convey our Prime Truth at this and any other spacetime moment (Cohen, 1997, 2016d).

    Note that only one of the eleven, above, senses, the sense of sight, is one of our 5-senses that were identified by Aristotle circa 330 B.C. This alone tells your sense of reason it is false that you only have five senses simply by validating that you have experienced ten more, including your senses of reason, consciousness and survival at this moment. Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

**Prime Truth Exhibit 7.** Reasonable relationships are a 54-sense bliss because the life-supportive climate they create is the climate you live in. As you nurture them and it, both nurture you. Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

## **Truth Is Alive**

**Prime Truth Exhibit 8.** Since before the Universe began, speechless Nature, has been and is its wordless love to begin life, a love that, by 1950, we identified scientifically as spacetime. Your existence and growth validate this because as part of Nature, like it and everything else, moment-by-moment, including this moment, you are Nature's spacetime continuum loving to begin your life as energy and matter. This is more attractive for you than not living. Your life desire and energy matter. Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

**Prime Truth Exhibit 9.** *Review: our Prime Truth is part of the here and now of Nature's spacetime loving to begin our Universe continuously since before its big bang birth.* You can validate this because if Nature, the Universe or we didn't exist, our Prime Truth couldn't exist to be true. As a demonstration of this, bring the Prime Exhibit here into this moment        and note that it and its truth still exist. That's because it matters. Conspire.

( ) Valuable/proceed ( ) False/ (visit references)

**Prime Truth Exhibit 10.** *Review: You exist and are alive as part of the life of our Universe.* It is completely logical, if not self-evident, that if Nature, the Universe, or our planet died this instant, you would also be dead. Then your Prime Truth couldn't be true because, being "dead," neither you or anybody else could produce, know, speak or live it.

If Nature died, so would its wordless love to begin life. If you know you are alive, be assured that our Universe is alive since all is one in spacetime and it is Nature's love to live. Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

**Prime Truth Exhibit 11.** As you sense and feel, your life as Gaia loves to live. It wants to support and nurture life in peace so we and it can continue to live and grow. It is also true that you may fight and risk death for your life's survival; that is your spacetime love to live in action (Cohen, 2010). Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

**Summary:** we exist, are alive and live in our Universe; it consists of Nature's spacetime love to begin life and it has been omitted from our education's felt-sense thoughts and relationships since it was validated in 1949. Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

## **Space-Time Facts**

**Prime Truth Exhibit 12.** *Review: For the past century, scientifically we exist in the motion of Nature's space-time Universe, not a static, self-recycling Universe as previously thought before 1906 A.D.* The Universe has seamlessly grown, like a tree from its seed, by progressively procreating itself since Nature loved to give Big Bang orgasmic birth to it 13.8 billion years ago. Because all things in its historic eons, as well as real time, are attached to each other in spacetime's now, the essence or identity of each thing is always present and accessible as either our stories and memories, or our immediate experiences, or our thoughts about the future. All things, past and future exist in spacetime "now" as energies and/or as true or false stories.

Spacetime, Nature's love to begin life now, is also our subconscious life in action. You can validate this fact by thinking about this moment's experience, and/or whatever memories, stories, facts, dreams, thoughts, things or feelings you have or will invent. Note that they are only real and available in this present moment of the Universe as your Prime Truth because your persona exists. Nobody has ever disproved this fact of life because *that person had to exist and be alive when they tried to disprove it.* Your life might enjoy reading this statement again because it is your Prime Truth anchor.

**PRIME TRUTH SCIENCE SYNOPSIS: Nature's magnitude wordlessly loved our standard Big Bang Universe into spacetime-being 13.8 billion years before humanity's stories first appeared.** The latter was only about 150,000 years ago. Any of our stories, information or relationships today that omit when all existence really began are misrepresentations that painfully abuse and polarize us. This makes us create our war, disorders and climate's crisis. Because we have known, but ignored, this spacetime fact for 71 years, we increasingly disconnect, break our world and suffer accordingly. We can, instead, apply the Climate Therapy remedy for this tragedy via this article. Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

## **Nature's Wordless Love**

**Prime Truth Exhibit 13.** Apart from humanity, including you, Nature's love to begin the life of the Universe and our Planet is non-verbal, like the Tao, a lake or a tree. Unless you have a scientifically valid example, no evidence exists that Nature has ever communicated in written or spoken words as we humans do, as we exemplify here. However, as this moment also demonstrates, our Prime Truth is an exception to this fact. Here and now, we are Nature using words to help us be our Prime Truth as we walk our talk and in that way this article peer-reviews itself. Otherwise, words are abstract values we impose that restrict how Nature works since, being

non-literate, it is helpless and vulnerable to the meaning of words short term. To our loss, wordless, it can't constantly remind us that Earth is now in 45% deficit, there is no free lunch and Nature/Earth bats last.

Since we exist in and as Nature's spacetime love to begin life, our ability to speak words is Nature's love to begin life expressing itself and its purity through our 54 senses and their labels.

We are not taught that the words we experience are not coming out of nowhere. They are Nature, as a natural area we call Planet Earth, speaking as us and we scientifically speak the words for Nature truthfully or they are un-trustable distortions. The latter make Nature/us lie about or attack itself so its integrity disintegrates, in and around us.

Our sense of reason, in concert with 53 others, recognizes that it is unnatural and unreasonable for us to felt-sense think or act-out words that we know injure Nature, especially since our senses of pain or fear make us aware when our excessively nature-disconnecting stories abusively inflict these injuries on our person, or nationally or globally (Cohen, 1995).

Climate Therapy is an existential science. When its Prime Truth deducts unreasonable stories it discovers that our excessively civilized world of words is a dream. It does not exist anywhere else in Nature. When that dream is not logically organized by our reasonable senses, our words become soldiers in our war with Nature nightmare. Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

**Prime Truth Exhibit 14.** The lies of our excessive, unscientific human stories and labels about Nature change Nature's/your life into conflicted and distressing climates of nature-disconnected labels, artifacts, relationships, emotions, behaviors, beliefs and environments. Your deeper, speechless Nature subconsciously lives in continuous fear of how these may further hurt or abuse you or when they will be painfully triggered into your consciousness if something "pushes your buttons" (Mallory, 2017) (Uhl, 2016). Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

**Prime Truth Exhibit 15.** Stories and labels can instantly transform the lies and inaccuracies that create our abusive relationships into 54-sense love that begins to remedy them. You can validate this if your Prime Truth here is doing it with respect to you increasing your trust and love of it. Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

## **The Nature Of Attraction**

**Prime Truth Exhibit 16.** "Attraction" is an evidence-based label for what holds things together. Its fundamental force or "glue" that unites things, from sub-atomics to galaxies and beyond. This includes us at our conception and all of Nature simultaneously in the now. Nature's wordless love to begin life is an attraction that is attractive. Its purity doesn't adulterate or do abusive things to itself.

You can validate that things, including yourself, exist and grow from attraction. For example, as you are attracted to continue to read this sentence you are aware of its words, not its individual letters until I mention this now. Also you may have missed that the word “are” was doubled in the previous sentence. Isn’t it attractive to continue and know these and other omitted facts so you may not be or feel misguided or mistrustful later? If not, how do you explain that you are now at this point in this new sentence if being here is not attractive? Attraction is spacetime motivation in action, even if its source is its desire or habit, love, pain or fear, real or remembered (Cohen, 2020). Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

**Prime Truth Exhibit 17.** In storiless Nature, attraction is free-will conscious of what it is attracted to otherwise it would not know what to connect or attach to. Unless you are being coerced into reading these words, you are doing this right now with your attraction to this sentence and possibly the next paragraph (Cohen, 2017). Are you going to follow this attraction? Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

**Prime Truth Exhibit 18.** Attraction in at least 54-sense ways organically holds all parts of Nature together, including yourself, while Nature is attracted to begin life. You can use Exhibit 6 to demonstrate this fact if your life at this moment can’t. Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

**Prime Truth Exhibit 19.** You know you love your 54-senses because your life embraces and depends upon their attractive satisfactions. That’s why you feel hurt and unhappy if they are abused, rejected or if you think some thing or disease will take them from you. Do you really want to get rid of any of them and their value? Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

**Prime Truth Exhibit 20.** Because attraction draws things together, it is the essence of love and unity including Nature’s love to begin your life in this moment. Is there anything you are sure is not held together by attraction? Are you attracted to speak rather than not speak, to live or not live? Isn’t repulsion actually attraction to some more attractive attraction? For example, we are not repulsed by danger, we are attracted to run *for* our lives to something more attractive, not towards suicide. Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

**Prime Truth Exhibit 21.** *Review. Attraction helps us accurately felt-sense experience and define Nature as its speechless attraction/love to become life. This organic energy holds immense or miniscule things together.* There is no such thing as a vacuum or empty space because they are all filled with attraction. Scientifically, our Prime Truth is speechless Nature’s verbalized attraction to become the organic life of its space-time, Big Bang Universe now. It was similarly immensely

attracted to birth itself as matter 13.8 billion years ago, and it is attracted/loves to grow in and as spacetime here and now because life loves to live as your life and mine. Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

**Prime Truth Exhibit 22. SUMMARY** Scientifically, since its beginning about 14 billion years ago, speechless, organic Nature, moment-by-moment, has loved to give birth to the Universe and its spacetime love to live and grow. This includes us and this article now. Over time, this attraction has grown stronger and become more attractive via homeostatic diversification. At this moment attraction continues to diversely grow everything in the Universe including Planet Earth you and me. You, I and these words are it in this moment.

Pinch yourself. You can Prime Truth sense the pinch and your existing life. Look around. It is self-evident that it, the world, and you exist, live and grow simultaneously. Isn't that survival, including yourself, attractive? Note, however, that you can speak words that assign specific meaning to things and Nature can't do this. To Nature, speech is foreign, an "abstraction," meaning "to draw away from or disassociate." Nature's love is defenseless against our non-supportive words about it. This is the core of our war, disunity and abusive climates.

Spacetime research since 1925 affirms that the Universe is not static, it has an attractive direction and purpose as its beauty demonstrates. Its spacetime sequence loves to support and grow its life. Nature's attractive intention is to continuously begin pure spacetime life, where all attractive things, including Prime Truth, exist harmoniously and unconditionally. This is our 54-sense attraction to well-being. If you can't feel that love this instant, to validate it, try disconnecting from it. Hold your breath. You'll felt-sense your organic love to live it shortly. Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

### **Nature's Singular Sequence**

**Prime Truth Exhibit 23. Review:** *In storiless Nature, attraction is free-will conscious of what it is attracted to. That is the essence of love and unity including Nature's love to begin your life in this moment.* In spacetime, anything you are conscious of always materializes after and from that same thing's preceding moment. During this organic transition and *while attached to their origins*, new attractions (diversities) establish their attractive lives [read homeostasis].

When the review, above, is communicated in industrial society, scientifically our words symbolize Nature's attraction to wordlessly continue a life-as-matter, math/science sequence (Cohen, 2017). As part of Nature's love to begin life now, this sequence is also who, what, where, when, why and how are you: You are Nature speaking your love to begin life. So am I and everybody else while the natural world does it wordlessly.

**THE SEQUENCE:** As per Exhibits 1-22, above, in the now that includes our latest 1970 or 2012 space-time Standard Universe story, you, I and all things are simultaneously living out our Prime Truth's

- 1) Love to become our wordless pre-Universe of *14 billion* years ago.
- 2) Love to birth and become the now of our wordless Big Bang, energy-matter, spacetime Universe of *13.8 billion* years ago.
- 3) Love to instantly become our wordless unifying attraction field as gluons, Higgs boson, gravity, electromagnetism, strong force et al) (Cohen, 2012)
- 4) Love to become our 13.8 billion year continuum of *wordless*, attractive spacetime growth and diversification in unified, homeostatic balance.
5. **Then 150,000 years ago language develops.** We love to become humanity's true or false words that, for survival, prejudicially override and hide knowing ourselves as Nature speaking its/our love to become life. We attach to our unique story world. It is a protective but often misleading love that bonds us to be artificial and economic as we nomadically wander into less supportive "foreign" climates and environments.
- 6) Love to become our inaccurate words that say "We and the Universe are *static*." That story claims, like a throw of the dice, we evolve by probability selections as we decay into the disassembled chaos of death and entropy. It says that when a thing's love to begin dies it is recycled and restored anew. This meant, *incorrectly*, that Earth is an infinite, ever-replenishing resource our nature-disconnecting words can prejudicially abuse, conquer and exploit indefinitely without harming Nature.
- 7) **In 1949**, after 46 years of research, quietly, our evidence-based words and reasoning replace the Static Universe story with today's spacetime Standard Universe science. It is nature's/our continual love to begin pure life. Our stories are inaccurate when they excessively civilize us so we omit Gaia, humanity's wordless 13.8 billion year life of the Standard Universe's Prime Truth, existence. It discloses the destructive falseness of stories about Nature, God, Love and Honesty, especially since they omit Prime Truth and fuel our prejudicial war against Nature.

This sequence is like Carl Sagan's "If you want to create an apple pie from scratch you must first invent the Universe." Your Prime Truth life with words invents the Universe because you are a personification of it that can talk. You inherently know it loved you into becoming you as the Big Bang, at your conception and now. This explains the discovery of how and why every 5-7 years every atom in your body is mutually-beneficial loved to be replaced by a renewing atom from the natural world and vice-versa. Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

## Nature's Love To Live

**Prime Truth Exhibit 24.** Our 54 felt-sense thoughts and relationships painfully signal when they are abused by our lies hurtfully breaking-up our Gaian love-to-live around, in and as us. Out of pain, fear or reason this abuse attracts our 54-senses to seek more attractive things and relationships to satisfy this loss of love. We call this base feeling "survival" our desire to keep Nature loving to become our life in the now of spacetime. For example, the immediate pain of a hot stove attracts your finger to a more attractive cool place so it survives rather than burns away. Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

**Prime Truth Exhibit 25.** *Review: Nature constantly loves to become the aliveness of its “now” space and time climate that it creates and where (space) it resides every instant (time).* This means that, in spacetime now, all the Universe and its eons are Nature’s spacetime life becoming your Prime Truth, “You are reading these words here and now.” As mentioned, this makes you an attractive, special, personification of spacetime that can speak. It enables you to register and accurately label your whole-life unity as your deepest Prime Truth love of life to live. In imagination or reality your first or last name could be “Spacetime.” It’s your conscious and subconscious life in this moment. Do you want to give up your spacetime life or make it more attractive and healthier? Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

### Words Are Not Reality

**Prime Truth Exhibit 26.** Your Prime Truth includes that rarely do the written limits of an article stop the falsehoods its story identifies so things seldom change without additional acts, conflicts or fights. This article remedies that phenomenon by blending the information in all 1-25 Prime Truth exhibits to create and strengthen a unifying **Greatest Truth** of your life that you can **Trust (GTT)**. It’s not Nature, God, Love or Honesty because they omit Nature’s 14 billion year of worless love to begin life 150,000 year ago; that’s their untruth or sin of omission as per Exhibits 12 and 23.

Without our GTT, the present is adulterated by the past. Once you know your GTT, you can include it and help stop our GTT distortions from breaking the world into our personal and global **Earth Misery Climates (EMClimates)**.

**EMClimates:** due to our evidence-based, prejudicial war against Nature’s web-of-life (Cohen 2008), this year, 2021, on average, we and our living planet endure a steadily increasing 48% loss of its recycling, composting and healing powers (Global, 2021). These vitalities are located in Earth’s eons of attraction-based wildlife and natural resources growing harmoniously in the now as part of Earth’s metabolism.

This alarming natural resource deficit is accompanied by a parallel 45% increase in our mental illness, obesity, climate change, oceanic oxygen depletion, loneliness, atmospheric carbon warming, mass shootings and excessive stress.

EMClimates’ painful outcomes increase corruption, child abuse, unhappiness, mistrust, unfairness, political and economic extremes, destructive cravings, dependencies, addictions and many other ailments. Most emanate from earlier abuse.

Our EMClimates socialize us, on average, to live 99% of our lives out of GTT tune with Nature’s love and spend 95% of our time indoors (Klepeis, 2001) (Weir, 2020).

As exemplified by the additional value you find in each Prime Truth exhibit here, your GTT can instantly discover, fortify and actualize Prime Truth in the now of anywhere, any place, anytime because then it is real there, not just written words here. This makes the remaining exhibits here be GTT exhibits that pertain to the EMClimates and spacetime everywhere, not just the Prime Truth in this article. For example, you will learn that if you visit somewhere next week, you can take your GTT Prime Truth with you and apply it to your relationships in real time there as needed. This love protects you from abusive EMClimates that may exist there, and immerses you in the organic joy of GTT sanity.

In short, once you know what your GTT is, by validating and actualizing your Prime Truth anywhere, your GTT increasingly strengthens and EMClimates diminish. It's like you as an ecozombie (Cohen, 2002) always carry an organic truth spray, serum or wand in your pocket. You are applying it now as you continue to learn more about your GTT on this page. Note that when you don't apply it you are victimized by EMClimates while their prejudicial lie of GTT-omission tells you that you are not a victim of that lie. Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

## **GTT: Our Greatest Trustable Truth**

**GTT Exhibit 27.** *Review: The attraction-based ways Nature consciously loved us, as verbal humanity, to begin living in and as Planet Earth, started about 150,000 years ago (Boyd, 2017). However, now, as then, we alone, not speechless Nature, invent stories, true or false, that we use to guide us for our survival. These stories may verbally connect to, or repulse, each other, especially when written so they can't easily change. Their messages often disconnect us from Nature's wordless love to become life as it demonstrates in a natural area.*

We are personally EMClimates disconnected from natural areas because we know them verbally while Nature's love remains non-verbal i.e. "53-sense speechless, dumb or ignorant around in and as us." Sadly, and to our loss, thing-by-thing we excessively treat or abuse Nature/us as our plaything or whipping boy because, being dumb, and while in pain Nature can't tell us "Stop," or send us a legal restraining order to desist from conquering or "improving" it, especially since our prejudice gives Nature no legal rights. To avoid this pain, we remove labels or relationships that can trigger it. That leaves our hurt hidden in spacetime while its within us. We call it our subconscious or solastolia and organize our lives to avoid experiencing it again while books and media safely vent it through their stories about it including jokes, films and competitive games as well as unreasonable drugs and behaviors. Our 54-sense attachments to our replacements for Nature's 54-sense love hide our GTT remedy from us so our prejudicial war with Nature continues around and in us. For example, Elton John said that his childhood traumas can still control him and, in addition to shaping his parenting style, they can make him erupt in anger without warning. Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

## **Prejudice Against Nature**

**GTT Exhibit 28.** *Review: When I began this article, my GTT insisted that it be founded on its Prime Truth so its authenticity could help me write it and be accurate. Without our GTT playing this role, this and most other writing or speech is excessively disconnected from wordless Nature's love to become pure life in natural areas, including weeds, bugs and swamps (The opposite of "swamps" like Washington D.C.). In fact, by omitting our GTT, our written laws can't stop us from telling stories, be they reasonable or harmful. (Cohen, 2011a).*

Our Prime Truth demonstrates that most of our words are limiting terms, invasive prejudiced foreigners that war with Nature, eviscerate Earth and turn things into money. For example, as ecozombies our excessively civilized written history includes felt sense knowing Nature as savage, barbaric and frightening, as something science must conquer to support our economics. Even after Osborne's and Vogt's 1949 bestselling books, (Cohen 2020a), our leader's words have knowingly socialized us to painfully break our world into EMClimates. As our Prime Truth's increasing value in this article demonstrates, we can invoke our GTT, reduce our prejudicial war EMClimates and increase well-being when we know how to apply our GTT anywhere. Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

**GTT Exhibit 29.** Our ancestors migrated from our mutually beneficial tropical origins into foreign seasonal climates. To survive in the latter our words and leaders "improved" temperate and arctic areas so that they imitated tropical life. Parts of humanity survived anywhere by their stories creating tools, artifacts stories and customs that, without GTT, rudely exploited Nature, around and in us. This birthed and encouraged our unchecked indoor world closet of agriculture, heat, shelter, conflicting stories, food preservation and medicines while it prejudiced us against nature as our enemy to be conquered. (Cohen, 1983).

Only our GTT creates, right now, this article's reasonable, 54-sense translation of our stories so that in a natural area, devoid of prejudice, you may peacefully unite your painful estrangement from Nature's love to begin life, moment-by-moment, in a more satisfying and balanced way, as described below. Your GTT is like you are feeling very thirsty and finally have the satisfactions of a natural area be a non-toxic liquid that quenches thirst. This becomes the latest entry into your life-experience autobiography (Cohen, 2019). Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

## Climate Therapy's Fundamental

**GTT Exhibit 30.** Here is the GTT secret remedy that reconnects our stories' abusive separation from Nature's nameless but restorative love in a natural area. (Cohen, 2016c).

Your GTT knows that a spacetime natural area is also our subconscious and everything there in authentic Nature, including us, is real, universal aliveness that happily corrects itself as it continually begins life.

Nature's love to begin life is at least two verbs, *loving* and *beginning*. The words for life are also verbs, its *attraction* or *loving* or *desiring* for *living* or *survival*.

Our civilization teaches us that we are the stability of nouns, for example, you are your name. We are also stabilized to the meaning of the labels our nouns attach to otherwise wild natural things.

The Nature-foreign meaning and power we assign to our noun labels gives us word and story control over the things that nouns name. This is because we relate to things' names, not to their natural, nameless, spacetime love to live organic attraction relationships.

Everything is in transition in Nature, however, things' names stay the same. This separates us from Nature's unity and becomes, instead, argumentative cubbyholes of knowledge. Our thoughts can make "Bambi," or each other into the terror of becoming a corpse, abused or conquered so our Prime Truth natural freedom is wounded or limited.

### HOWEVER

Our GTT can make any noun a verb simply by adding "ing" to it. Ing is action, a state of *being* spacetimeing. For example, I, Mike, am also me Miking. Similarly, a tree is treeing, a cloud is clouding and GTT is us GTTing.

Even in an injured natural area our GTT can add "ing" to anything, so we know that thing as a verb and vice-versa. This makes Nature literate via us in that its *loving* to begin life can sense how that ing label makes us act like Nature's equal and friend, not a conquering, foreign-power noun. This is like creating a common denominator for different fractions to unify in their oneness, in this case, unifying with Nature's love to begin life in a natural area. With joy there, that spacetime love reduces our subconscious pain.

"Inging" enables your GTT to recognize a "thing" to be an attractive, supported, free and unified part of a natural area that your words, especially nouns, have enslaved to fight our prejudicial war against Nature and the hostile climates it creates. (Note that a thing consists of the letters th before ing and that its original meaning was to assemble i.e. unify.) As your words coerce a natural thing to become an EMClimate, you simultaneously, but not necessarily consciously, also do it to its spacetime existence in and as you.

For us to GTT, or not to GTT, that is the question. Since 1974, to not-GTT continues the EMClimate lies that break and hurtfully cubbyhole us and our world.

GTTing a natural area changes objective nouns back into loving-to-become-life verbs, including us. This makes your GTT stronger as it makes space for Nature to 54-sense compost and recycle our painfully misguided thoughts and acts into its love to begin pure life, as only it can do.

As I promised, your GTT works, by updating your Prime Truth “You are reading these words here and now” into what you experience anywhere else, especially in authentic Nature.

- For example, if you love a Rose for its color and fragrance, you substitute “You” with *Youing*, enjoying words with *Roseing’s* coloring and fragranceing here and now.” (Translation: you love a rose’s color and fragrance.)

-The Prime Truth becomes your GTT “*Youing* are loving a rosing’s coloring and fragrancng here and now” to be the greatest truth of your life that you can trust and it’s not Nature, God, Love or Honesty that right now, by omitting GTT, continue to deteriorate our world into EMClimates.

In this spacetime reality, Prime Truth “ingng” 54-sense transforms what ails you into a rewarding, safe and scientifically reasonable spacetime platform or lifeboat that, at will, your GTT can return to in reality or imagination, and reestablish in the now. Then you can continue your love to live while your now GTT platform consciously embraces you in your 14-billion-year history of Nature’s love rather than the stressful prejudice of EMClimates. That love is a wonderful and wise purity that you personify and can experience and share with others if you are in a natural area.

Although this process seems complex and lengthy as you read it, you can achieve it in less than a minute by being your GTT in a natural area and inviting an attraction there to respond to “*Youing* would love consent from ‘Roseing’ to learn from it in mutually beneficial ways (Cohen, 1990).” Once you obtain that consent, in three minutes, you can completely update and actualize Carl Sagan’s famous apple pie statement to say, “If you want to create ‘well-being’ from scratch you must first invent Nature in a natural area.”

In the now, our GTT lets our Prime Truth label and speak the Tao as well as actualize Confucius’s “The beginning of wisdom is to call things by their right name.” Without GTT, since 600 BC, Buddha and Thale’s deductive science have preached against, but actually created and supported, EMClimates.

### **Practice your GTT**

- For 5 minutes, go to an attractive natural area and with each thing *Youing* (your name with an ing) recognize there a tree (or anything else that’s attractive), label it an ing, like treeing. Think about the truth of *Youing* and treeing both being Nature loving to begin life in that moment. Then say to the tree “Right now *Youing* and treeing are Nature loving us to begin our lives together.

- Now, in imagination become the treeing, and you say to *Youing*, “We are Nature loving us to begin our lives together,” and discover what is valuable in doing this.

*then*

- For five or more minutes, 54-sense how many attractive things about treeing you can find that are as parts of *Youing*. In actuality, they all are.

Then, become treeing and see how many attractive parts of *Youing* it recognizes being treeing. In actuality, they all are except your stories that say they are not. (Cohen, 1989).

The core of a natural area *ing* becomes the common denominator “All things here are their love to live by supporting this area’s spacetime love to begin life now.” 😊 Our lies are the words in these disastrous times that prevent our GTT from actualizing our Prime Truth happiness while transitioning off this page and into other realities including stressful interpersonal relationships. 😞

NOTE: Only if you know your GTT, can this exhibit be used to reduce the excessive separation of Nature’s and our essence. For example, by adding “ness” instead of “ing” to things, like treeness, or calling things people, like tree-person or rock-person, or “non-verbal me,” or “we love beginning life.” Via GTT, these *ing* substitutes when added to relationships, human or otherwise, help increase the well-being of our personal and global climate as they transform EMClimates into Nature’s unconditional love to live by beginning life. Then all things belong and mutually support and balance each other for survival as authentic Nature’s love. Without GTT they reinforce the lies of omission that produce EMClimates. It omits that in Nature’s “survival of the fittest,” the fittest are things whose attractions most cooperatively support other thing’s attractions.

*Inging* makes your GTT become the Lorax or an Earth Avatar so you can speak and act to make spacetime in EMClimates for Nature’s love to do only what it can do. This process, called “Grokking,” is a relationship that helps some of your 54 senses green-hug love an attraction in a natural area to blend with you and others, and vice versa, so you become felt-sense oneness, personally and globally (Cohen, 2016a). *Grokking* is your crucial GTT antidote for EMClimates. Interpersonally, its singularity “cures” the bi-polar, schizophrenic and prejudicial now, along with other disorders, because all become one.

*Inging* demonstrates why a natural area’s peace and unity are a GTT “Higher Power.” They don’t produce garbage, war or undue abuse while they become optimums of life, diversity, love, community, balance and cooperation (Cohen, 2007). This explains our GTT-omitted, ever-increasing, mistrust, conflicts, lies, divorces and EMClimates.

**Here’s a corrective lens for your worldview: *Without our GTT most of our words insensitively abuse Nature’s love around and as us and we react accordingly.***

**In summary**, without our GTT, you and I learn to know and relate to Nature, around, in and as us, by restricting the natural attractions of “things” as we label these things’ wildness with words that they are not. We control and manage them as our labels and stories dictate, be they reasonable or not, as demonstrated by our prejudicial war against Nature. In turn, our emotions and things, including our 54-senses, protest their loss of Nature’s love and freedom. To stop this invasive injustice, our GTT injects Prime Truth into EMClimates. There, its GTT “*ing*” in natural areas makes the labels accurate, free, attraction-loving verbs that we and Nature’s love hold in common everywhere to begin life. Doing this with another person is especially valuable and builds lasting reasonable relationships. Any personal, social or environmental cause that omits their GTT is 850% less effective and more distasteful than needs be. 😞

When you improve life by *inging*, something soon happens in a good way, meaning to the benefit of all. Quiet time in a natural area short-term automatically makes this connection on a personal or local level, but without your GTT seldom in a lasting or global way.

Have you ever felt a special peaceful happiness in a quiet (wordless) natural area? Was it valuable? Different than being in a shopping mall? That was Nature's love rewarding your senses for sensing it.

Many studies show that Nature-contact increases a person's well-being (Cohen 2015). In a natural area it improves person/planet climates 850% better if you know your GTT. GTT's momentous, safe, spacetime switches on a healing and unifying happiness energy. In the now, all things become the perfection of Nature's love to procreate life's purity, balance and beauty. During these green-hug moments, EMClimates don't exist while, unimpeded, person and planet well-being increases and becomes a spacetime platform for our love of life to begin anew.

Note that most spiritual leaders met their Gods in a natural area while they were scientifically unaware that 14 billion years earlier spacetime Prime Truth was already becoming that area's, and their, life and existence. For this reason, these leader's truths were and are lies that omit Prime Truth. Without GTT, so do God, Nature, Love Honesty and us, today....except for this moment...here.

"Inging" enables your GTT to do what my GTT sometimes does in a natural area where all things exist simultaneously including our past stories and influential people. There, I can teach spacetime science to the nature-connected experiences of

- Buddha, -Jesus, -Mohammad, -Moses, -Krishna, -Betty Frieden,
- Gandhi, -Martin Luther King, -Sojourner Truth, -Einstein,
- George Washington, -Susan B. Anthony, -Hitler, -Sweitzer,
- George Floyd, -Shakespeare, -Rudolf Steiner, -Aldo Leopold.

With me they learn to update our Static Universe model of 3,000 years ago to 1949 A.D. That is approximately when spacetime became the Standard Big Bang Universe model in today's high tech society. These individual's truths are attracted to my assertion that our society denies that it is prejudiced against nature and the remedy for this tragedy is familiarity with the GTT of natural areas where they and we exist harmoniously in the now of Nature's love to begin life.

Your GTT recognizes that when you find something attractive in a natural area, simultaneously it's that same thing, in/as you, telling you that your story has excessively disconnected you from your in-common existence with that natural area and thing now. The attraction signals you to reconnect, to 54-*sensing* it and enjoy the peace, happiness and well-being your wordsmithing has actualized by unifying our broken world's EMClimate. This strong attraction in Nature helps you happily resolve a conflict you presently endure. Similarly, in World War II the solidarity of making victory gardens quickly solved food shortages to save our nation's life as did blacking-out our windows at night.

Do you recognize that since you began reading this narrative your GTT has beneficially increased your competence in strengthening your GTT along with your ability to help others do the same while reducing EMClimates. That progress is self-evident and you can add that skill to your livelihood. That experience is the best proof that you can increase personal, social and environmental well-being now and in the future. If your capability has not strengthened, it suggests that you may not yet fully know your GTT and that it's readily available (Cohen, 2021). Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

*Note: There are 150 additional partnering-happiness activities available that, like inging, help you help Nature's life begin to unify our conflicts and relationships (Cohen, 1993, 1994).*

## **Actualizing Your GTT**

**GTT Exhibit 31.** As if a miracle our GTT lets us know what's true by making Prime Truth work everywhere with anything anytime. We create this "absolute organic truth" by blending of all the exhibits to create, in metaphor, a pair of spacetime, 54-sense GTT glasses. When we put on these corrective lenses, they make anything we see or know anywhere the same GTT of "You are reading these words here and now."

Our GTT glasses update our Prime Truth while off this page and involved in anything else as long as we know what our GTT is. Most of us don't but we can learn it in seven minutes by phone and then teach it to others. (Cohen, 2021).

The glasses have two different lenses, one with our GTT and the other our EMClimate perceptions. That is how in reality and imagination our glasses activate our sense of reason so we can act more sensibly especially because GTT glasses inherently know that Nature bats last (Cohen, 2011).

OPTIONAL: A means to strengthen our glasses is the acronym "NNIAAL-54." It quickly brings to spacetime awareness our Prime Truth's 54-sense, **Now, Nameless, Intelligent, Alive, Attraction Love** that, without our GTT, becomes today's lies and EMClimates. Your GTT glasses can NNIAAL-54 anywhere because anywhere always contains Nature's continual love to begin life in pure spacetime while the prejudice of our EMClimates deteriorate it (Cohen, 1990).

Do you recognize that "You are reading these words here and now," has become your mobile GTT glasses that work anyplace you know what you GTT is. Nature's love and your Prime Truth want you to use your glasses to make safe space for them to live. Sometimes saying "As my GTT" before you do something puts these glasses on.

Like DNA testing can today disclose facts that were missing thirty years ago, what follows are GTT facts I have validated by discovering and exploring my GTT since 1936 and applying it since 1965. Your challenge is that without knowing your GTT you are reading these words right now *while they may be hiding your GTT from you.*

Every relationship includes Nature's love as a participant. When it's buried we create EMClimates. Only Nature can remedy this predicament when wearing our GTT glasses makes a safe space for its love to begin doing this.

In summary, today, a 54-sense GTT glasses remedy in natural areas enables us to take our abusive EMClimates *that we create with mislabeled nouns* and transform them into the joy and healing ways *of verbs* that make space for Nature's love to begin life now. Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

## **Imagination Is Real**

**GTT Exhibit 32.** *Review: organic, 54-sense science can create terms, stories and activities that help us produce attractive connections with Nature that are therapeutic. In a natural area this helps remedy what ails us as our GTT begins to attach accurate names, including “ing” to things there including us.*

Remember, in spacetime, imagination is real, it exists as such so there is no such thing as imaginary fear; its source is also present. This means that in a natural area our GTT can take today’s prejudicial war against Nature, around and as us, back to our origins 150,000 years ago and our words then and there capturing and placing restrictive labels on Nature including people. This lets our GTT reconnect our prejudicial nature-disconnecting stories to their peaceful origins as Nature spacetime loving them and us into being, *then and now*. This reality creates a now, reduced abuse moments *platform* where we can finally begin our excellent childhood.

This exhibit shows how our natural area GTT immediately stops our hurtful conflicts rather than supporting or increasing them. It actualizes our 54-senses while they are connected to how Nature’s love works in a natural area. This blend eliminates the cause and effects of our tragic EMClimates disconnections. It enables spacetime in reality and imagination to start to grow in this new, begin-life-now climate instead of remaining disconnected and its adverse side effects and the phenomenon can be added to anything (Cohen, 1989). Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

**GTT Exhibit 33.** All these exhibits make it imperative that we add GTT to whatever our cause or intent if we want to halt our world-breaking Earth Misery Climates war. If we did this, I have demonstrated that the results we want can be achieved 850% faster and stronger because Nature around and as us becomes our ally rather than our victim. For example, in our GTT community, three individuals got strep throat and because it was scientifically reasonable, the whole community agreed to change the schedule and take preventative measures while the three were treated for it in personalized ways. It was cured and never spread (Cohen, 2012).

Without our GTT no matter how nature friendly our activities, intentions and relationships, since 1974 we have known that our EMClimates daily increase. Because we don’t add GTT to our relationships they are 14 billion year outdated misrepresentations. (Global 2021). Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

## Earth Misery Climates Data

**GTT Exhibit 34.** Additional Earth Misery Climates information: Our GTT shows that we are engaged in a prejudicial war against Nature that educates us to create today's suicidal world while violating our moral, ethical and legal rights to life (Cohen, 2016). We must hook up with another planet half Earth's size to replenish these losses and we can't find that planet no less know how to hook up with it. We can, however, invoke our GTT to stop this madness.

Tragically, without our GTT and its anti-lie powers, by law we spend 18,000 childhood hours being educated to produce our EMClimates. We spend less than 12 hours of our lifetime in tune with Nature's love to begin life. Adding 54-sense GTT to everything we learn or do helps remedy our dilemma. This article accomplishes that because my GTTing is writing these words in spacetime and my GTT is also everybody else's GTT. This lets us Prime Truth co-mentor each other when we know our GTT.

Our GTT works anywhere because it is experiential, it strengthens-by-doing so it self-corrects and improves itself every time we invoke it. While its absence creates Earth Misery Climates, its presence replaces them with Nature's continual love to begin pure life as only it can. Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

## Maverick Genius

**GTT Exhibit 35.** I discovered my GTT when it helped me notice its existence. This has continually occurred over the 56 years I have been researching the arts and science of holistic education, counseling and healing with Nature while camping out in 84 different natural area habitats, backyard or backcountry. Since 1959 my GTT has stated: "As a twig is bent so grows the tree and this explains why humanity has lost its way. Our growth from the 'savage' does not necessarily lead to the cluttered, materialistic often desperate life that we presently live. To find the right road my nature-connected learning program must return its participants and itself in reality as well as in imagination to the origins. From them we can go forward again in a truly civilized, not a merely artificial, way of life."

In 1965, out of frustration and curiosity, in the bowels of the Grand Canyon Wilderness in Arizona I reasonably asked Planet Earth how its life was different from mine After I continually deducted the similarities, it became apparent. I could speak and think with words and it could not. This was self-evident, a GTT fact because that's exactly what was happening then. It's happening now, too, in your GTT now, wherever and whenever.

My decades of individuals and communities beneficially actualizing our GTT relationships in natural areas qualified me for doctoral degrees and being recognized as a maverick genius who created accredited programs to this end (Cohen, 1998; Hoke, 2015)

I'll match the GTT of my 56 years of pure, 54-sense experiences in natural areas with any individual, dead or alive, and I'll come out far more accurate and practical. This is because my GTT spacetime science was unavailable to anybody before 1950 so what others did is scientifically outdated and detrimental in today's EMClimates disaster if GTT is not added to it. Better still, I can teach folks how to become a 54-sense GTT maverick genius so they can help themselves and others reverse our EMClimates and their abusive ways. I have established GTT trainings, courses and degrees to this end (Cohen, 1994, 2019).

One need not be a maverick, [read "inconvenient"], genius to recognize that all our knowledge media and experts have brought us to create, increase and suffer this moment's EMClimates. This shameful unreasonableness continues to grow because, moment by moment, we are emotionally rewarded, no less paid money, by EMClimate's destructive thoughts, feelings and relationships. It's like overeating to satisfy the loss of love you feel from being overweight Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

## **Our Warped Ego**

**GTT Exhibit 36. Our Ego is our central story about us and itself.** It describes who we are and our self-worth as a reasonable thinker and doer, individually and collectively. What influences our Ego often modifies how we think and grow. However, with respect to its egotistical story, it is an eye that can see the world but can't see itself. (Cohen, 2020a)

Nature, being wordless, has no ego story. Its senses of reason and consciousness in now congress with 52 other senses are its ego. Neglectfully, our Ego defensively hides its guilt for creating or participating in the uncivilized and illegal Earth Misery Climates we create (Cohen, 2001).

Our Ego became its/our "civilized" description about how Nature should work for our survival above all because our lies convinced our ego that it is king of the world. Nature's love couldn't argue with that since it couldn't and can't speak.

When our stories omit our GTT they are scientifically outdated or inaccurate and we suffer from our Ego's need to be rewarded as "right" as well as endure its painful disgrace for being wrong while aware the EMClimates we create are criminal negligence (Cohen, 2016). This shames and frightens our ego so it denies its responsibility for it.

EMClimates make us overuse our planet's life to excessively produce material satisfactions for our pain. We mislabel this phenomenon "greed" instead of "Nature-Love Deficiency." Without our GTT our ego mislabels Nature's wonderful attributes to be "the human spirit," and says Nature must be improved or conquered. This prejudice defames Nature and violates our rights to life so, without GTT, all forms of justice are 850% ineffective.

To stop this insanity, our GTT must applaud and reward our ego when it is GTT reasonable and reject its non-GTT stories for their negative outcomes while we offer them the satisfactions of

Climate Therapy GTT that they desperately need. That's like creating eternal stem-cell therapy everywhere. Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

## **Organic Validations**

**GTT Exhibit 37.** In case you don't fully trust your senses, the GTT facts I present here have been peer reviewed and published in scientific journals (Cohen, 1993, 2017). Our GTT includes the science of deductive reasoning that deducts from Nature, outdated or unprovable phenomena, including the mystical and supernatural. This makes what remains trustable, repeatable, evidence-based fact. Even the billion-year-old slime mold with no nervous system is GTT deductive and can solve some of today's advanced mazes and scientific challenges.

We sometimes know Nature as a wonderful experience, like an amazing rainbow, but seldom as our GTT. This makes Nature "recreation" while omitting that it's simultaneously recreation, an antidote for our prejudicial EMClimates (Cohen, 2022).

Can our non-GTT remedies for EMClimates ever succeed if their unjust and toxic "side effects" continue to bond us to use more goods and energies than Earth's life can replace even as we transition? Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

"What was really cool was I gave my sister simple instructions of asking permission of a natural area and then asking what her greatest truth is. She had a similar experience to mine, of the timelessness of her past and present as one in the now (Cohen, 2020d). It was really cool! Our child natures were attracted to this experience, and we were jumping up and down like kids and not women in our 6<sup>th</sup> decade of life! Wheee! "

~ **GTT participant interaction**

"I went to a natural area I was attracted to and asked permission to 54-sense unify with it. I asked what my greatest truth is at this time and had an experience of nature embracing me in the present, and also feeling as if I were in the 'past' at the same time, back to the teenager that would flee to nature when things got really tough. I was a teen, and I was the me now, simultaneously. I felt safety and well-being. I realized we are timeless as is nature. Nature stands for us day and night, over eons. Nature is there for us consistently; it never abandons us. My sense of belonging was attracted to this, as were my senses of safety, peace, nurturing, attachment, and my own truth." ~ **GTT participant interaction**

"I love this, getting comfort from our "Other Mother" (Earth) is just what we all need. Over my lifetime, our "Other Mother" has also been a father sister and brother to me,

too, an entire family. A really perfect place to belong.” ~ **GTT participant interaction** (Cohen, 2020d)

“We were three University administrators who knew our GTT. For four hours we enjoyed sitting outside discussing ways to promote it. The topic was how a sanctuary for GTT could become part of an online school campus that offered GTT autobiographical degree programs to help people remedy Earth Misery Climates. We decided to continue the discussion while at lunch, only to learn that the restaurant said it would take 30 minutes have a table available for the three of us. As we waited outside, Nature called me to use the restroom so I went inside and noticed a table set for two. “Out of the box” my GTT attracted me to ask if the table could be set for three. It could, so we started lunch a spacetime half an hour earlier while continuing our GTT conversation. When it came time to pay the bill, we were flabbergasted. The waitress said that strangers sitting at the next table were so moved by our discussion’s “climate” that they paid our check and the waitress’s tip. Significantly, if we had waited a half hour they would not have been there. This exemplifies exactly how I discovered and implemented my GTT for the past 56 years as Nature’s love to . It became my essential. I let my GTT take me one step beyond by it making the space and time for it to do so. Writing these words right now is doing that. This means your GTT can do the same. (Cohen, 2012).

~ **GTT Mike Cohen** Conspire.

( ) Valuable/proceed or ( ) False/restart or (Cohen 2021)

## Conclusion

**GTT Exhibit 38.** Because most of us have had our natural world GTT abused in some way, especially during our formative years, this GTT article is a tool that lets us 850% better remedy our nature-prejudiced war traumas and the EMClimates they create everywhere. My narrative achieves this by scientifically affording safe reconnection space in attractive natural areas and gaining consent from them to let us connect with what attracts us there so that we may discover that the real last name we all hold in common is “Spacetime,” Nature’s continual love to begin life as us using words.

At this moment and forever, until new evidence updates it, this 54-sense article lets anybody become our GTT in any relationship or discipline once they know their GTT. That’s our Prime Truth in action, 0 or 1. It’s omission increasingly creates our EMClimates. The conclusion is that we must replace omitting it with spacetime moments that let Earth teach. You can facilitate this by participating via (Cohen, 2021). Conspire.
