**Michael J. Cohen, Ed.D, Ph.D.**

Dear Caring Person,

What do you think you would need to convince you of this invitation's powerful authenticity? Its cutting edge truth entitles you and yours to economically benefit from its socially and environmentally responsible outcomes.

Synopsis: URGENT ALERT Learn how to finally stop the lies that create our increasingly destructive disorders and broken world. Scientifically apply Project NatureConnect's Climates Therapy tool. Its fully researched, heartfelt eco-arts help Nature compost and transform our lies into Nature's unifying health, balance and beauty.

\* \* \*

Does it alarm you that because we omit a critical instrument for personal, social and environmental well-being, our world is increasingly sick and broken? Do you believe this tool even exists?

How do we fix the core lie that plagues us if we deny or omit our key remedy for it?

Our greatest problem is that we learn to refute this undeniable truth:

“It is indisputable that you are reading these words right now, yet these same words hide your greatest trustable truth from you so you don't know what it is.”

Ask yourself “What is the greatest truth of your life that you can trust and it is not Nature, God, Love or Honesty of today as, painfully, our broken world demonstrates?” Because most people don't recognize or invoke their great truth, our lies make us suffer today's Earth-shattering global suicide.

Note that in 1968, I created a natural area expedition school from a seven year pilot program because I discovered, "The human race has lost its way. Its questionable path has led to the cluttered, materialistic and, at times, desperate life that we presently live. To discover a better way the school must return its participants and itself in reality and imagination to our origins. From them we can proceed in a truly civilized, not a merely artificial, way of life (8)."

In my 1984 book, *Prejudice Against Nature* (9), I internationally shared the ways and means to transform this prejudice into a reverent familiarity with Nature.

Nature is its love to begin life, moment-by-moment. Its purifying, self-correction power always works yet we seldom put its organic ways into practice.

It is now 52 years later and a dangerous lie plagues us. It says we have no treatment for our suicidal war with Nature around in and as us. That falsehood painfully breaks our world and in December, 2020 the UN [admitted this fact](#) after 37 years of ignoring it (6).

Self-evidence today demonstrates that a Climates Therapy eco-arts science transforms our war and destructive excessiveness into Nature's unifying love and peace. By 850%, when applied, this heartfelt social technology strengthens our ability to increase well-being through personal, social and environmental justice.

When we don't apply the truth of this organic process we suffer the pain and disorders generated by our "normal" anti-Nature "war propaganda." That hurt fuels our battle against Nature, our planetary womb that loves, nurtures and protects our life, as our wonderful antibodies demonstrate.

When we injure Earth's life, we hurt our personal and collective lives because, scientifically, with one exception, all things are the same life of space-time in any given moment.

Most of us sense, feel and suffer our runaway war's dishonesty about Nature. Since 1949, our lies have made our advanced science and technologies a weapon that continues to amputate Earth's ability to recover from our war's evisceration of us and Earth (5).

**Earth Misery Climates** Today, our war with Nature produces a 45% decline in Earth's wildlife populations and natural resources while it 45% increases mental illness, climate crises, corruption, isolation, conflict and excessive stress. *The stress alone* creates our abusiveness, cravings, dependencies, injustice, addictions and disorders. Without applying a genuine climates therapy remedy, we are helpless to control our hurdle into global suicide so it increases, moment-by-moment (2).

Our ever-growing Earth Misery is a core dilemma; now is the time to be exceptionally honest. In your heart of hearts do you really believe that the earth-miserable way we are indoctrinated to function can make the world recover from the catastrophe we continue to impose on Nature/us? The treatment for this error is that our thoughts and acts must include the Climates Therapy remedy for Earth Misery. It lets Nature compost and recycle our lies and conflicts into the unity of person/planet love.

Isn't it immoral or unethical for our leaders to promise better tomorrows when they know that without using Climates Therapy our 45% bankrupt ways keep increasing our Earth Misery deficit no matter what steps we take to stop this madness? Look around. Those we trust to guide our lives are in denial of this short circuit and its solution. Does this include you?

Wouldn't you like to honor your observations and experiences with respect to our war's excessive exploitation of Nature and people? Learn, teach or promote Climates Therapy. It reduces the war's destructive effects and our education's lie-of-omission about its prime cause. The latter violates our rights to life.

Our excellence in education is not excellent. Hasn't it made you think this notice is probably an unimportant hoax or advertisement so you resist it? What can you trust, how are you grounded? Again, do you recognize this truth about truth:

“The fact that you are reading these words right now is the greatest truth of your life that you can trust. However, these same words hide your great truth from you so you don't know what it is. Hint: it is not today's Nature, God, Love or Honesty.” What is it?

Most people don't know our missing truth and suffer accordingly, yet anybody can learn it in seven minutes by calling me 360-378-6313. It is the [core of eco-](#)

[arts/science](#) (3) and described in the book *Climate Therapy* (7) and the white paper *How to Liberate Your Natural Essence* (4). Recognize that without it, our better judgement can't tell fact from fiction or fake from real (2).

Profitably explore, benefit and add organic reality to your relationships and livelihood. The world will thank you and come to your doorstep because it knows that our earth misery climates are dead ends.

Live your natural wisdom. Reduce Earth Misery Climates. Free, [instantly increase justice for all of life by 850%](#) (1). I invite you to join our quantum leap, actualize-now coalition. Our crucial contribution will surely win a Nobel Prize.

Dedicated help is wanted. You can be it.

With Love for a Saner World in Seven Minutes,

Michael J. Cohen, Ed.D., Ph.D.
