

Discover And Strengthen The Greatest Truth in Your Life That You Can Trust

**This absolute resolves any conflict by increasing wellness, justice and
peace as it outsmarts Artificial Intelligence.**

Michael J. Cohen

Abstract

This article activates, validates and strengthens the reference in my other articles to “Our greatest trustable truth.” It’s a green switch tool that the United Nations has declared we need to stop our suicidal war against Nature. Without it, we excessively felt-sense think and relate in our archaic, Steady State Universe paradigm while, scientifically, we real-time exist as part of the life of Nature’s Spacetime Universe that flows around and through us continually. Because in and as it, all things, including us, grow as a single, self-correcting universal lifeform, moment by moment, our “mechanical vs alive” universe paradigm creates destructive conflicts that break apart our lives and the world. In this applied ecopsychology article, as a conflict remedy, its green leaf logo creates 54-sense, great trustable truth moments that activate Nature’s healing unity. Since forever as now, they are Nature’s wordless attraction to begin life and justifiably love its dance into being, growing and regenerating. This liberates Nature’s otherwise blocked and wounded ways that adulterate our society’s “Nature,” “Gods,” “Love,” and “Honesty.” This article lets Nature’s healing and wellness energies beneficially flow again.

A selfie taken by the life of Nature’s Spacetime in Alaska

Article

The United Nations' Secretary General has declared that we are waging a suicidal war against Nature; he says that this physical and moral conflict damages all things as it breaks our world and that a "Green Switch" must be pulled to stop this catastrophe.

This article validates part of the Pristine Truth green switch attraction (🌿) that I authenticate in the peer-reviewed articles [Pristine Truth Ecopsychology](#) and [Natureness in Action](#). On this page it is an attraction force that is invisible but present after every word in this article, a unifying power that motivates the reader to continue reading the next words. 🌿 I make it visible again in the Conclusion.

This article substantiates the fact that by 75%, we are committing ecocide by winning our war against Nature as we omit my illuminating experience below in a natural area that anybody can authenticate by repeating it for themselves.

I asked the canyon, "What is the difference between your life and my life?"

"On an August day in 1965, a freak thunderstorm compelled me to ask the Grand Canyon Wilderness, where I was backpacking, if it was alive and how

its life was different than mine. No surprise, the Wilderness said nothing because Nature's flow doesn't use or know words. Soon, however, the answers became obvious then, as right now, too.

'Nature can't speak and I/humanity can.'

'If Nature dies, I'd die so Nature has to be alive.' "

This pristine truth rules throughout this article and its origins. That makes it exceptionally trustworthy and useful.

The conflicts we suffer around and in us arise because, since Nature is wordless, the words we speak remove us from the life of Nature's self-correcting flow around and through everything including us. This loss is critical because the flow grows the life of all things and vice versa, moment by moment.

A selfie taken by our suicidal war with Nature

Since, in reality, our words are artificial substitutes for Nature's wordless life-giving ways, they don't have Nature's life-giving powers. This is a profound loss that we call "death." It occurs when we depend on and overuse words that don't reconnect us with Nature's flow. That war crime is what's breaking our lives and world and it includes the words of this essay with one momentous exception.

Continually, the source of this article's words is aware of this challenge so it is a Pristine Truth tool that can bring our personal and global lives back into balance. The tool's nature-reconnecting "right words" continually resolve our wordless vs words conflict. ***That's what these very words are beginning to do here now.***

Sadly, and for-profit, our society does not insist that we learn to use the Pristine Truth tool that reverses the destructive loss and imbalance that our excessive nature-disconnecting words create. To correct this sin of their omission, this article gives you the right words right now so you may accomplish this critical feat. The right words are "Pristine Truth" as the next paragraph demonstrates.

Please Note that you can scan down the remainder of this page while knowing that you can benefit from its message 550% better by enjoyably discovering your greatest truth and strengthening it with a phone call to 360-378-6313. This works because the call activates your 54 senses, not just five..

Most folks don't call because they fear it may further injure them on the war with Nature battlefield that we call "normal." Writing and reading things is safer. It provides "Foxhole protection from the war," but it is 550% less effective than safe, real-time, contacts with people, places and things. This occurs because the words that appear here are not in spacetime synchronicity with me, their author, who wrote them on January 12, 2024. Note too, that the telephone call is required if you want certification for or a degree in Applied Ecopsychology. Do you recognize that the phone call's real-time contact prevents creating or supporting the conflicts that produce our [Earth Misery](#)

Our Pristine Truth Paradox and Tool.

A UNIFYING QUOTE ***"The greatest truth in your life that you can trust is that you are reading these words here and now."*** That's because the quote's words validate the unifying Pristine Truth that you exist and are alive, that you can use words, and that you're attracted to continue reading here.

The quote is true for anybody who reads it because its words disconnect it from Nature **and then re-connect** the things that they have disconnected.

A selfie of objective science conveying facts while nature-disconnected

Pristine Truth is undeniably accurate because it says when and where it's happening. "When" and "where" are this instant's life of Nature, our Spacetime Universe. More than 70 years ago It replaced our archaic Steady State Universe model.

When I ask folks what is the greatest truth in their life that they can trust and it is not the deteriorated state of "Nature," "Love," "Gods" or "Honesty" today, they usually don't know what it is. They may have spent the whole 84 years of their life not knowing their greatest trustable truth and suffered from misguiding information accordingly. This explains why we are vulnerable to the tragic lies we are fed and why we create them. Over 99.9% of our lifetime, we are out of tune with the self-correcting truth of our lives and all of life.

The quote, "You are reading these words here and now." is a powerful truth and unifier because it includes **in words** the essence of Nature's **wordless** unity as follows.

1. It puts the **non-verbal unity of Nature's life into words** that express Nature rather than remove Nature's attractions and intentions because it can't speak them.
2. It enables the quote to include wordless Nature itself **stating in words that it is part of the quote**. ("Here" and "now" are the life of Nature in the quote, the "space and time" of its life in words.)
3. The quote is the unadulterated reality of Nature's and our life in action. As you read it, its words **precisely convey that it is you doing what you are doing**, i.e., you are reading, registering, growing and being moment by moment.

4. It accurately represents **Nature's/your life identically acting as a verb**, an “ing,” a doing, action, or sensation that occurs in the present.
5. It confirms **the existence of itself, Nature, us and our many senses** that register and chronicle it, including our senses of consciousness, reason and literacy.
6. The experience remains a **constant spacetime truth that grows with us** and substantiates our and Nature's pristine truth as we change and grow, no matter what we do.
7. **It enables Nature to express itself** and that is a momentous spacetime act that lets local acts immediately be the global difference that is missing and needed.

Unlike these words that you are now reading, the unifying quote goes beyond just being an explanation. It includes doing what it says it is doing rather than being a distortion that says something but does not have the ability to do or demonstrate it. This is significant because without implementing pristine truth, our lives and the world are breaking apart. This is because **we are living out the lies that create our disorders as they excessively separate us from Nature's ever-unifying attraction power.** The quote brings all things at once into Nature's beauty, balance, and purity, moment by moment, with air, indoors or outdoors, or, better still, in a natural area.

A selfie of natural attraction in action

Note that the quote's meaning at this point of the article is different than when it first appeared above because here and now it consists of different time, space and information.

Here's a major paradox. If I ask you right now what is the greatest truth in your life, and it is definitely not today's destructive corruption of Nature, Love, Gods, or Honesty, **you probably still don't know what it is.**

This happens because, as above, your Greatest Trustable Truth **is not** the increasingly tragic way that we today practice and know "Ourselves, Nature, Love, Gods or Honesty." Without the benefit of Pristine Truth, their accuracy and value is compromised and our trustable faith in them is lost.

What else, then, can your Greatest Trustable Truth be? Scientifically, it must exist because it's true that you exist as part of today's insanity..

Our trustable truth is a key to mental health and reasonable relations. We must use it to stop creating and suffering our lies and conflicts while, to our loss, it's being withheld from us for profit.

Let me help resolve this conflict by adding here some information about my 1965 Grand Canyon moment of pristine truth when I asked, as aforementioned, "What is the difference between your life and mine?"

At that moment, as now, my/your DNA consists of 20% plant genes that are 500 million years old, as are our animal genes.

My immediate and influencing environment then was 7000 feet below the rim of the Grand Canyon. I was leaning against and surrounded by Brahma Shist that natural attractions formed almost two billion years ago.

That shist is part of the life of Earth whose planetary essence started as natural attractions that grew dust and gas almost six billion years ago.

I was in Planet Earth, that is in the Milky Way Galaxy that was attracted to form 13.5 billion years ago and is our starlit night sky now. However, it is only one of a mindboggling two trillion additional wordless galaxies that have grown with and as the life of our expanding universe that we call Nature. All its atoms are the same as our personal atoms and all of ours are replaced in us by atoms from the environment every few years.

Since in our Spacetime Universe, like any other life form, all things in it happen and grow at once. I was and sensed all of the billions of galaxies that grow and consist of atoms and their sub-atomic relationships that I/we consist of, so, on an atomic level, our life is their life, and vice versa. That's what we feel when we have a peaceful experience in a natural area.

I became aware that the major difference between all of the above and me is that I/we guide our lives with words that are otherwise presently unknown to the spacetime life

of two trillion galaxies and their stars since their Big Bang birth and origin 13.7 billion years ago.

A selfie of Pristine Truth's source

I began to learn that until humanity and our attraction to our words appeared less than a million years ago, spacetime did not abstract itself with words. I realized that, when uncorrected, words are unknown and incomprehensible forces that manipulate or conquer Nature. They act like foreigners that disrupt, until corrected, the life of speechless Nature and violate its attraction to grow and diversely increase its attractive perfection. Being wordless, Nature can't complain about this trespassing or hire a lawyer. It remains silent, so we give its natural area existence few legal rights of their own.

As I have grown in contact with natural areas, I felt-sense discovered from experience that spacetime self-organizes and guides itself around, in, and as me through attractions

that wordlessly balance harmoniously with each other. They procreate and grow their eons of self-correcting space and time to live in moment by moment.

I now reasonably sense, feel and think that we are the same as spacetime when our Pristine Truth words attractively connect us with its natural areas. Without this contact our words excessively disconnect us from them and addict us instead to nature-disconnected relief. This furthers our nature-isolation problems.

Please Note that you can enjoy discovering your greatest truth and strengthening it with a phone call to 360-378-6313.

When you do call, in fun ways I or others explore with you your response to the question ***“What is the greatest truth in your life that you can trust and it is not Nature, Gods, Love or Honesty because they have been corrupted.”***

In this telephone-contact spacetime, unlike these words here, in seven minutes, from direct sensory contact with Nature, you enjoy, validate, and can create moments that teach 1-7 above as it grows from your life experiences and education.

You discover that your greatest truth is that you are a verb, that every instant contains **“I am”** speaking, hearing, feeling, thinking, seeing, registering and relating to things via 54-senses. “I can hear your voice...feel this seat...am holding this phone, I’m thinking about this, breathing, wondering etc. You love, own and sense an equivalence to this entire article that is 550% stronger than it because your natural area spacetime contacts reinforce it when you make space for them to do so. In Nature, this is the opposite of falsely learning that “I am” is a form of conceit. That’s how we are taught to lose or invalidate ourselves and suffer accordingly.

A selfie of our essence connecting with a community of others.

You also can opt to connect with a community of others who have also had this telephone or first-hand experience. They are usually attracted to further it through supportive friendships with you and others who hold this pristine truth in common. This can develop wonderful reasonable friendships or more.

PRISTINE TRUTH LEARNING: HOW TO TRANSFORM OUR WAR WITH NATURE INTO THE UNIFYING LOVE OF ALL THINGS AT ONCE.

The Sequence 0 1 2 3 4 5 6 7 8 9.

Mathematics is as close as we get to being accurate in our society. It works because the sequence of its numbers/symbols is consistent, which is congruent with how Nature and time work, one singular moment after another. This uniformity allows any changes in the sequence to be noticed and dealt with or learned from.

The sequence only works, however, if its first step is accurate. Otherwise, everything that follows will have the same warp until it's corrected.

Pristine Truth works because its foundation is its grounding in the balanced and beautiful natural area life of Nature's Spacetime Universe as its eons flow around and through us and all things moment by moment.

Each step along the way first repeats the foundation step and then grows from or with it. **When it doesn't do that, it starts a different sequence** so the total loses its value because it can't be trusted (as above, bold numbers 1- 5 become small numbers 6 - 9). A clock does the same thing once it is set to the wrong time.

A selfie of our roots in Nature sequence as it increasingly omits pristine truth

Sadly, the ability of Project NatureConnect's remedy for this catastrophe, its [Pristine Truth network](#) and [blueprint](#), have been blocked from society so most things are conflicting and worrisome rather than unifying and harmonious. Pristine Truth's absence explains why we suffer our increasing war on Nature catastrophe. You can safely experience the how and why of its disappearance and learn how to remedy it by visiting our high-tech [mind-reading camera](#).

Here, we will now apply the truth of mathematics sequence to discover and remedy our tragic loss of the greatest truth in our life that we can trust. As aforementioned, ***it's not Nature, God, Love, or Honesty because without Pristine Truth, their lies and corruption continue to deteriorate personal, social, and global well-being.***

Again note that you can best enjoyably explore your greatest trustable truth and strengthen it in a phone call to 360-378-6313.

Instructions Simply check off each step in the following sequence when you know it's true for you.

1. () You exist in this moment. You know this because you can pinch yourself and feel it and can read these words. If you did not exist, you could not do this or anything else.
2. () You are alive at this moment. You know this because you can react to these words, move your fingers, and breathe. If you were "dead" you could not do this.
3. () You can use and understand words and Nature can't. In this way your human life is different than anything else in Nature.
4. () Here and now are space and time and, therefore, can logically be called spacetime.
5. () If you were going to meet someone, knowing **just the place** to do it would not make it true, ie, make it happen in reality.
6. () If you were going to meet someone, knowing **just the time** to do it would not make it true, ie, make it happen in reality.
7. () If you were going to meet someone, knowing both the place and time, that spacetime could make it happen.

A Selfie of Pristine Truth Spacetime

8. () You could have chosen to stop reading this page anywhere up to this moment or right now, too
9. () That you did not choose to stop reading this page up to this moment means that some attraction you hold motivated you to continue reading it.
10. () You are now aware that some attraction is motivating you to continue reading here right now until you feel you are attracted to do something else instead and stop reading.
11. () You know that it's still absolutely true that you are reading these words.
12. () ***It's absolutely true that your life is attracted to exist, live, breathe and can act while you are reading these words here and now.***

This Pristine Truth is undeniably accurate because it includes when and where it's happening. "When and where" is the moment-by-moment life of Nature, our Spacetime Universe. More than 70 years ago, its arts and science replaced our archaic, mechanistic, Steady State Universe model.

13. () You could not do #12 if “here and now” did not exist.

14. () The indisputable truth of your life in #12 is existential; those words are always attractive, available and reliable, so you don’t have to prove them true.

A selfie of strengthening our greatest truth by doing it.

15. () When you are attracted to having your truth strengthen you in anything you are doing, simply change “***reading these words***” in #12 into words that say what you are doing at that time.

16. () Doing #15 brings the wisdom and happiness of your greatest trustable truth into your life instead of you feeling at risk, like a soldier drafted into our insane war against Nature. Helping someone else learn to make this critical transition with you makes its power and benefits stronger for all things.

A selfie of our wordless and verbal Pristine Truth

17. () Have 1-15 been effective enough? Have they 550% increased your resilience and wisdom so you can enthusiastically transform your war zone trauma into interactive real-time therapy while safely in your foxhole? Is your wellness 49-sense stronger than when not strengthening your great truth?

18. () Bring your Greatest Truth's sense of reason into a shopping mall and later into nature's beautifully balanced peace in a natural area. Note which of the two makes more sense by feeling sensible and being more lasting.

Via 1-16, above, you can now be at one with nature via breathing Nature's air, or better still via natural area attractions. Whatever you sense think or feel in your greatest trustable truth moments is also nature doing the same. What you and your words discover explore and value in Nature, you and it do the same for you. Because everything at once is part of the growth of our Spacetime Universe, it's wisdom is inherently yours and vice versa when your great truth connects with it.

19. () Note that your greatest truth works because your "quote" sentences include their validation by including "here and now" in them. This shares you word gift with Nature's wordless spacetime wisdom from day one, even before the big bang, as now.
20. () Note that #19 promotes recovery and mental health because it enables Nature, including words, to share with you its existing antidote for every poison or injury it sustains. Sharing this gift with another person helps you grow lasting relationships with them. They include graceful guidance with words by a natural area's attraction energy as it simultaneously streams through them, you and all things.

A selfie of "Sharing this gift with another person."

21. () If I ask you now, “What is your Greatest Trustable Truth?” would your answer be #12 in first person?

NOTE When, at this point, I ask folks to send me an email that describes what the Greatest Trustable Truth in their life is, their email usually contains an accurate summary of 1-20 above. However, what its greatest truth should be is **“I am writing you this email.”** This error happens because their thinking has habitually left spacetime/now and returned to the war zone. This phenomenon continually decreases as they participate in [Pristine Truth](#) activities while helping others do the same.

22. **Please Note** that you can still reasonably enjoy checking out and strengthening your greatest trustable truth with a phone call to 360-378-6313.

Conclusion

As aforementioned, this conclusion includes a motivating spacetime attraction “symbol” to continue the article and your life (🌿) by reading the next sentence as it is validated in [Pristine Truth Ecopsychology: the Natureness Remedy](#).

Scientifically, in the beginning, before the Big Bang, as now, there was/is a wordless energy, Nature. It’s life became attracted to then, as now, procreate and continue itself attractively, to love the dance of life into being. (🌿). Can you feel it right now? 🌿 It’s attracted your, and everything else’s life to be attracted to each next word here. 🌿 It’s doing that this instant. 🌿 This moment is the beginning of your next moment, except if your words say that this truth is less attractive than some other attraction. However, if you listened to that lie you would not be at this word. 🌿 Thankfully, your words doing that 🌿 was a stronger attraction than not doing it because your greatest trustable truth is where you are right now. 🌿

If you would like to feel that 🌿 attraction stronger, hold your breath. 🌿 You will soon wordlessly feel greater attraction to being the attractive person that you are, and you will be able to validate this with words, too. 🌿 Remember that the air you breathe is created by plant life. As you breathe it, Earth breathes you.

Note that in our human world of words, “attraction” is the essence of love. 🌿 Use Pristine Truth to instantly live in peace and become more attractive to all things. 🌿

The Chant of Pristine Truth (key of A)

“This is the wisdom of the ages; the only truth is love.” 🌿

Here and now, the reader's life experiences 🌱 in this article identify and define the constructs and terms I use here and in my reference books and articles below. You can use them to unify your great trustable truth with anything because their heartfelt accuracy simultaneously works personally and globally. 🌱

Nature is since forever, as now, its beautiful, *wordless* attraction to begin life and justifiably love its dance of everything into being and growing harmoniously.

Spacetime supports Nature's life and vice versa, It's our Standard Big Bang Universe, as it begins and grows/expands moment by moment.

Pristine Truth is unadulterated spacetime and its history in action

Natureness is the self-correcting essence of Nature and its flow around, through and as us and all other things.

Humanity is Nature with the unique ability to create and use words and their stories.

Attraction is the essence of love, its attractive desire to live in balanced diversity.

Life is its love to live and support life attractively.

Natural System Thinking Process is a web-of-life blueprint model of Nature.

Green Switch is the application of otherwise missing Pristine Truth

Earth Misery is the result of humanity's words excessively disconnecting us from Nature.

Greed is the outcome of excessively or addictively wanting things because our excessive loss of nature's love makes us feel that we never have enough.
